**SUPPLEMENTARY INFORMATION:**

**Proposed Action**

Sacramento County is proposing to expand and operate its Juvenile Hall to better serve the community and the existing and future juvenile justice populations. The need for this action is based on the conditions of the existing juvenile justice facilities, additional space requirements needed to accommodate projected growth rates in the at risk youth population that will enter the juvenile justice system, and the County's desire to increase efficiency by expanding the existing facility rather than fragmenting the facilities to different locations. The Proposed Action would include the construction of two 30-bed housing units within the existing footprint, a 30-bed housing unit adjacent to the existing building, security modifications, a new visitor's center, a central plant expansion, classroom, dayroom and exam room additions, expansion of food service, laundry, staff dining and training rooms, expansion of the warehouse and a new space for the relocation of the intake/release function.

The project also allows for the future construction of 8 modular designed sleeping rooms, each consisting of 30 beds, for a total of 240 additional beds. These additional beds would be constructed sometime within the next

15 years, when funds become available and after the initial construction of the 90 beds described above.

**Alternatives**

The draft EIS will address the potential impacts of the 'no action' alternative, and one or more alternatives involving the construction of the proposed expansion at the existing site.
