

tuberculosis infection in animal species that could lead to improvements in disease detection and prevention. Granting cooperative agreements to institutions of higher education (including State-sponsored universities), hospitals, or other nonprofit organizations to conduct research projects necessitates the use of information collection activities, including the completion of project proposals and progress and financial status reports.

We are asking the Office of Management and Budget (OMB) to approve the information collection activities for cooperative agreements for the study of bovine tuberculosis.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 3.5 hours per response.

Respondents: Program participants (researchers associated with universities, hospitals, or other nonprofit organizations).

Estimated annual number of respondents: 4.

Estimated annual number of responses per respondent: 2.

Estimated annual number of responses: 8.

Estimated total annual burden on respondents: 28 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of June 2002.

Peter Fernandez,

Acting Administrator, Animal and Plant Health Inspection Service.
