(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 3.5 hours per response.

Respondents: Program participants (researchers associated with universities, hospitals, or other nonprofit organizations).

Estimated annual number of respondents: 4.

Estimated annual number of responses per respondent: 2.

Estimated annual number of responses: 8.

Estimated total annual burden on respondents: 28 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

from the PRC. See *Notice of Preliminary Determination of Sales at Less Than Fair Value: Certain Cold-Rolled Carbon Steel Flat Products From the People's Republic of China*, 67 FR 31235 (May 9, 2002). The final determination of this investigation is currently due no later than July 10, 2002. Pursuant to section 735(a)(2) of the Act, on May 30, 2002, the Pangang Economic and Trading Group Corporation ("Pangang") requested that the Department postpone its final determination in the investigation until 135 days after the date of the publication of the preliminary determination in the **Federal Register**. In addition, in accordance with 19 C.F.R. 351.210(e)(2) Pangang requested that the Department extend the application of the provisional measures prescribed under section 733(d) of the Act to not more than six months.

Postponement of Final Determination and Extension of Provisional Measures

Section 735(a)(2)(A) of the Act provides that a final determination may be postponed until not later than 135 days after the publication of the preliminary determination if, in the event of an affirmative determination, a request for such postponement is made by exporters which account for a significant proportion of exports of the subject merchandise. The Department's regulations, at 19 CFR 351.210(e)(2), require that requests by respondents for postponement of a final determination be accompanied by a request for extension of provisional measures from a four-month period to not more than six months. In accordance with 19 C.F.R. 351.210(b), because (1) our preliminary determination is affirmative, (2) the requesting exporter accounts for a significant proportion of exports of the subject merchandise (see *June 13, 2002 Memorandum to the File from James Doyle, Program Manager, re: Antidumping Duty Investigation of Cold-Rolled Carbon Steel Flat Products from the People's Republic of China: Request for a Postponement of the Final Determination*), and (3) no compelling reasons for denial exist, we are granting Pangang's request and are fully extending the due date for the final results by 60 days, until no later than September 23, 2002. Suspension of liquidation will be extended accordingly.

Dated: June 14, 2002.

Assistant Secretary for Import Administration.
