**SUPPLEMENTARY INFORMATION:****I. Background**

30 U.S.C. 932 includes section 7 of Public Law 803, as amended, and stipulates that medical treatment including services and apparatus, as required, will be furnished to the miner for such period as the nature of the illness or process of recovery may require. 20 CFR 725.701 establishes miner eligibility for medical services

and supplies for the length of time required by the miner's condition and disability. 20 CFR 725.706 stipulates there must be prior approval before ordering an apparatus where the purchase price exceeds \$300.00. 20 CFR 725.707 provides for the ongoing supervision of the miner's medical care, including the necessity, character and sufficiency of care to be furnished; gives the authority to request medical reports and indicates the right to refuse payment for failing to submit any report required. Because of the above legislation and regulations, it was necessary to devise a form to collect the information. The form is the CM-893, Certificate of Medical Necessity (CMN). It is used by OWCP to determine reimbursement of medical benefits to Black Lung beneficiaries. Regulatory authority for the collection of this information is at 20 CFR 725.506, 510, 511, and 513. The information collection is currently approved by the Office of Management and Budget (OMB) for use through November 2002.
