

affect a coal miner beneficiary's black lung benefits. The CM-929 is designed for this use.

Once a miner or survivor is found eligible for benefits, the primary beneficiary is requested to report certain changes that may affect benefits. To ensure that there is a review and update of all Trust Fund cases and to help the beneficiary comply with the need to report certain changes, the CM-929 is sent to all Trust Fund primary beneficiaries. This information reduces the potential for overpayments and for underpayments to payees due to unreported changes in status.
