

**DEPARTMENT OF DEFENSE****Office of the Secretary****Revised Non-Foreign Overseas Per Diem Rates**

**AGENCY:** DoD, Per Diem, Travel and Transportation Allowance Committee.

**ACTION:** Notice of revised non-foreign overseas per diem rates.

**SUMMARY:** The Per Diem, Travel and Transportation Allowance Committee is publishing Civilian Personnel Per Diem Bulletin Number 225. This bulletin lists revisions in the per diem rates prescribed for U.S. Government employees for official travel in Alaska,

Hawaii, Puerto Rico, the Northern Mariana Islands and Possessions of the United States. AEA changes announced in Bulletin Number 194 remain in effect. Bulletin Number 225 is being published in the **Federal Register** to assure that travelers are paid per diem at the most current rates.

**EFFECTIVE DATE:** June 1, 2002.

**SUPPLEMENTARY INFORMATION:** This document gives notice of revisions in per diem rates prescribed by the Per Diem Travel and Transportation Allowance Committee for non-foreign areas outside the continental United States. It supersedes Civilian Personnel Per Diem Bulletin Number 224.

Distribution of Civilian Personnel Per Diem Bulletins by mail was discontinued. Per Diem Bulletins published periodically in the **Federal Register** now constitute the only notification of revisions in per diem rates to agencies and establishments outside the Department of Defense. For more information or questions about per diem rates, please contact your local travel office. The text of the Bulletin follows:

Dated: June 14, 2002.

**Patricia L. Toppings,**

*Alternate OSD Federal Register Liaison Officer, Department of Defense.*

**BILLING CODE 5001-08-M**

Maximum Per Diem Rates for official travel in Alaska, Hawaii, the Commonwealths of Puerto Rico and the Northern Mariana Islands and Possessions of the United States by Federal Government civilian employees.

**DEPARTMENT OF DEFENSE****Department of the Navy****Record of Decision for Disposal and Reuse of the Fleet Industrial Supply Center, Naval Fuel Depot Point Molate, CA**

**AGENCY:** Department of the Navy, DOD.

**ACTION:** Notice.

**SUMMARY:** The Department of the Navy (DON) announces its decision to dispose of the Fleet Industrial Supply Center, Naval Fuel Depot Point Molate near Richmond, CA.

**FOR FURTHER INFORMATION CONTACT:** Mr. Alan Lee, Southwest Div, Naval Facilities Engineering Command, 1230 Columbia St, Suite 1100, San Diego, CA 92101, telephone (619) 532-0975, facsimile (619) 532-0940.

**SUPPLEMENTARY INFORMATION:** Under the authority of the Defense Base Closure and Realignment Act (DBCRA) of 1990, Public Law 101-510, 10 U.S.C. 2687 note at 582-606, and pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. Section 4332(2)(C) (1994), and the regulations of the Council on Environmental Quality that implement NEPA procedures, 40 CFR parts 1500-1508, and the Department of Navy regulations implementing the federal regulations, 32 CFR 775, the Department of the Navy announces its decision to dispose of Fleet and Industrial Supply Center, Naval Fuel Depot Point Molate (NFD Point Molate), Richmond, CA. Disposal of this property will permit productive reuse of this surplus federal property. Several reuse alternatives were evaluated in the Environmental Impact Statement (EIS), including the Preferred Alternative (Alternative 2), light commercial and light industrial development.

**Alternatives Considered**

The proposed action is the disposal of the NFD Point Molate property. The Final EIS analyzed effects of the Preferred Reuse Plan, and effects of two other reuse plan alternatives. The No Action Alternative was also evaluated.

Alternative 1, Residential/Commercial, would use about 55 acres for residential development, 27 acres for commercial activities, 6 acres for light industrial activities, and 325 acres, including 100 acres of submerged land, for open space/recreation.

The Preferred Alternative, Alternative 2, Industrial/Commercial, would use about 27 acres for commercial activities, 61 acres for light industrial activities, and 325 acres, including 100 acres of

submerged land, for open space/recreation.

Alternative 3, Recreation/Commercial, would use about 27 acres for commercial activities, 8 acres for light industrial activities, and 378 acres, including 100 acres of submerged land, for open/space recreation.

No Action Alternative, NFD Point Molate would not be disposed and would remain in Federal caretaker status. The Navy would maintain the physical condition of the property by providing security and making repairs essential to safety. Because the No Action Alternative has less potential for adverse environmental impacts, it is the environmentally preferable alternative. However, the No action Alternative would not promote local economic development nor create jobs and, therefore, is inconsistent with the statutory direction contained in the DBCRA.

**Environmental Impacts**

DON analyzed the direct, indirect, and cumulative impacts of each alternative on the environment. Potential significant impacts that could result from Alternative 2 are discussed below.

Expansion of the existing sewage treatment plant or construction of a new sewage treatment plant and operation of a winery on site could result in incomparability between these land uses and other development on site. Until a specific project is identified, it is not possible to identify the amount or type of commercial uses that might be proposed in the Waterfront Park Beach priority use area. Proposed uses could be inconsistent with the San Francisco Bay Plan. The EIS includes minimization and avoidance measures that the developer could implement that would reduce these potential impacts to insignificant levels. There is also the potential for exposures of occupants of the property to accidental releases from a nearby refinery. However, most occupants would not be staying overnight and overnight stays would be limited to guests and staff of a hotel or bed and breakfast facility. The Bay Area Air Quality Management District (BAAQMD) does not consider these occupants sensitive receptors. Because there would be no sensitive receptors on site as defined by the BAAQMD this potential impact is considered insignificant.

The proposed redevelopment would increase the demand for police, fire, and emergency medical services. The distance between NFD Point Molate and local city fire stations could require the city to establish a fire crew and fire

truck at the existing fire station.

Although the existing water system at NFD Point Molate has inadequate water pressure to meet firefighting requirements, the Preferred Alternative includes upgrading the water system to satisfy these requirements.

Five cultural resources at NFD Point Molate have been identified: Winehaven Historic District and four archeological sites. The Winehaven Historic District is the only property at Point Molate listed on the National Register of Historic Places. Pursuant to Section 106 of the National Historic Preservation Act and its implementing regulations, 36 CFR part 800, the Navy has completed consultation with the Advisory Council on Historic Preservation (ACHP), the California State Historic Preservation Officer (SHPO), and the Bay Miwok Band American Indian tribe. As a result of these consultations, the Navy has agreed to several actions to avoid or minimize adverse impacts to cultural resources. These obligations are set forth in a Memorandum of Agreement among the Navy, the ACHP, the SHPO, and the Bay Miwok, dated January 29, 2002. Before conveying any property at NFD Point Molate, the Navy will submit an amendment to the National Register of Historic Places for the Winehaven Historic District. The amendment will distinguish between the contributing and non-contributing buildings and structures within the District. The Navy is also applying to the California Historical Resources Commission to reduce the Winehaven Historic District boundary as it appears on the California Register of Historic Resources, so that non-contributing properties are excluded. The Navy is nominating a historic Shrimp Camp (CA-CCO-506H) to the National Register and will formally evaluate the National Register eligibility of three prehistoric archeological sites (CA-CCO-282, CA-CCO-283, and CA-CCO-423), and if they are determined eligible, nominate them to the National Register.

There are no Federally listed threatened or endangered species known to occur on the NFD Point Molate property under the Endangered Species Act.

The Preferred Alternative could have significant impacts on transportation, traffic, and circulation. Projected traffic could cause substantial delays during peak commuting hours at three intersections of freeway ramps and roadways near NFD Point Molate. On one ramp, a local agency planning threshold would be exceeded. In
