**FOR FURTHER INFORMATION CONTACT:** Superintendent, Biscayne National Park, 305-230-1144 ext. 3002.

**SUPPLEMENTARY INFORMATION:** The NPS is developing an amendment to Biscayne National Park's 1983 General Management Plan for management of the 7 stilt structures located in the northern part of Biscayne National Park in Biscayne Bay. In 1980, the park's northern boundary expanded and Biscayne National Monument became Biscayne National Park. In 1985, when the State of Florida transferred ownership of the bay bottom within the expansion area to the park, it also transferred the leases for the property, which the structures occupy. The leases expired in July 1999. The park's 1983 General Management Plan, Development Concept Plan, Wilderness Study, and Environmental Assessment recommended removing the structures before the leases expired. Because of numerous expressions of public interest in maintaining the structures, the NPS initiated a multi-stage planning process to identify and recommend future public uses of the structures consistent with NPS policy.

Our practice is to make comments, including names and addresses of respondents available for public review during regular business hours. If you wish for us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.
