

Proposed Rules

This section of the **FEDERAL REGISTER** contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 02-AEA-06]

Amendment of Class D Airspace, Huntington, WV

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed amendment would increase the upper limit of the Class D airspace at Huntington, WV. Controlled airspace extending upward from the surface is needed to contain aircraft executing Instrument Flight Rule (IFR) procedures and provide a safer operating environment. This action would increase the upper limits of the existing Class D airspace from 3,300 feet MSL to 3400 feet MSL.

DATES: Comments must be received on or before July 21, 2002.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Airspace Branch, AEA-520, Docket No. 02-AEA-06, FAA Eastern Region, 1 Aviation Plaza, Jamaica, NY 11434-4809.

The official docket may be examined in the Office of the Regional Counsel, AEA-7, FAA Eastern Region, 1 Aviation Plaza, Jamaica, NY 11434-4809. An informal docket may also be examined during normal business hours in the Airspace Branch, AEA-520, FAA Eastern Region, 1 Aviation Plaza, Jamaica, NY, 11434-4809.

FOR FURTHER INFORMATION CONTACT: Mr. Francis T. Jordan, Jr., Airspace Specialist, Airspace Branch, AEA-520 FAA Eastern Region, 1 Aviation Plaza, Jamaica, NY, 11434-4809: telephone: (718) 553-4521.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views,

or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy-related aspects of the proposal. Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 02-AEA-06." The postcard will be date/time stamped and returned to the commenter. All communications received on or before the closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the Rules Docket closing both before and after the closing date for comments. A report summarizing each substantive public contact with the FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Office of the Regional Counsel, AEA-7, FAA Eastern Region, 1 Aviation Plaza, Jamaica, NY, 11434-4809. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2A, which describes the application procedure.

The Proposal

The FAA is considering an action to amend Part 71 of the Federal Aviation Regulations (14 CFR part 71) to provide additional controlled airspace for Instrument Flight Rules (IFR) procedures at Tri State/Milton J Ferguson Field Airport, Huntington, WV. This action would provide the needed additional Class D Airspace area.

Federal Register

Vol. 67, No. 121

Monday, June 24, 2002

Class D airspace designations for airspace areas extending upward from the surface are published in Paragraph 5000 of FAA Order 7400.9J, dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class D airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that would only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; EO 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9J, Airspace Designations and Reporting Points, dated August 31, 2001, and effective September 16, 2001, is proposed to be amended as follows:

Paragraph 5000 Class D airspace areas extending upward from the surface of the earth.

33 CFR Part 66

[USCG-2000-7466]

RIN 2115-AF98

Allowing Alternatives to Incandescent Lights, and Establishing Standards for New Lights, in Private Aids to Navigation

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to remove the requirement to use only tungsten-incandescent-light sources for private aids to navigation (PATONs) and to establish more-specific performance standards for all lights in PATONs. These measures would enable private industry and owners of PATONs to take advantage of recent changes in lighting technology—specifically allow owners of PATONs to use lanterns based on the technology of light-emitting diodes (LEDs). They might reduce the consumption of power, simplify the maintenance of PATONs, and make the rules for PATONs equivalent to those for Federal aids to navigation.

DATES: Comments and related material must reach the Docket Management Facility on or before August 23, 2002.

ADDRESSES: To make sure that your comments and related material do not enter the docket [USCG-2000-7466] more than once, please submit them by only one of the following means:

(1) By mail to the Facility, U.S. Department of Transportation, room PL-401, 400 Seventh Street SW., Washington, DC 20590-0001. Caution: Because of recent delays in the delivery

of mail, your comments may reach the Facility more quickly if you choose one of the other means described below.

(2) By delivery to room PL-401 on the Plaza level of the Nassif Building, 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202-366-9329.

(3) By fax to the Facility at 202-493-2251.

(4) Electronically through the Web Site for the Docket Management System at <http://dms.dot.gov>.

The Facility maintains the public docket for this rulemaking. Comments and material received from the public, as well as documents mentioned in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at room PL-401 on the Plaza level of the Nassif Building, 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: If you have questions on this proposed rule, call Dan Andrusiak, Office of Aids to Navigation, at Coast Guard Headquarters, telephone 202-267-0327. If you have questions on viewing or submitting material to the docket, call Dorothy Beard, Chief, Dockets, Department of Transportation, telephone 202-366-5149.

SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking [USCG-2000-7466], indicate the specific section of this document to which each comment applies, and give the reason for each comment. You may submit your comments and material by mail, delivery, fax, or electronic means to the Docket Management Facility at the address under **ADDRESSES**; but please submit your comments and material by only one means. If you submit them by mail or delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit them by mail and would like to know that they reached the Facility, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for one to the Docket Management Facility at the address under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

Regulatory Information

Background

The Marine Safety Council (MSC) of the Coast Guard recommended this rulemaking to provide owners of PATONs with more options for selecting equipment. This rule might reduce lifecycle cost, reduce the consumption of power, and simplify the maintenance of PATONs by allowing the use of lighting technologies other than those based on tungsten-incandescent light sources.

History of Rulemaking

On October 4, 2000, the Coast Guard published a direct final rule (DFR) [65 FR 59124] under the same docket number as the one borne by this NPRM: USCG-2000-7466. We published that rule as a DFR because we expected that the public would readily embrace it; however, we received an adverse comment. Because of this, we withdrew the DFR [66 FR 8 (January 2, 2001)] so our engineers could analyze and respond to the comment. They did so. Not only did they follow the commenter's advice to make performance standards for LEDs more specific; they also recommended to the MSC the standardizing of all rules related to lights used as PATONs.

Response to Adverse Comment

Our engineers have analyzed the adverse comment. We are publishing their responses to the several concerns in the order in which the commenter raised them.

Concern (1) "Absent the provision of standards for LED performance, the reliability of [PATONs] will decrease."

Our response: First, we agree that we should publish standards for the performance of LEDs. Second, we should make more explicit our performance standards for all lights used as PATONs: We propose to establish, in addition to the existing ones, specifications for range, effective intensity, uniformity in the horizontal plane (omnidirectionality), and divergence (beam spread). Third, we propose to require that each light feature
