During any administrative review covering all or part of a period falling between the first and second or third and fourth anniversary of the publication of an antidumping duty order under § 351.211 or a determination under § 351.218(f)(4) to continue an order or suspended investigation (after sunset review), the Secretary, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must include the name(s) of the exporter or producer for which the inquiry is requested.

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305.

These initiations and this notice are in accordance with section 751(a) of the Tariff Act of 1930, as amended (19 USC 1675(a)), and 19 CFR 351.221(c)(1)(i).

Dated: June 19, 2002.

**BILLING CODE 3510–DS–S**

**SUMMARY:** Notice is hereby given that NMFS has received three revised applications for incidental take permits (Permits) from the Public Utility District (PUD) No. 1 of Douglas County (Wells application) and PUD No. 1 of Chelan County (Rocky Reach and Rock Island applications), in the State of Washington pursuant to the Endangered Species Act (ESA). Each PUD has revised its application(s) to include a revised Anadromous Fish Agreement and Habitat Conservation Plan (HCP), as required by the ESA, designed to minimize and mitigate any such take of endangered and threatened species. The revised Anadromous Fish Agreements and HCPs are also intended to serve as agreements to satisfy the PUDs obligations under the Federal Power Act and related federal and state laws governing effects on anadromous fish and their habitat. The PUDs seek authorization for the incidental take of listed species associated with the operation of three hydroelectric projects located on the Columbia River between river mile 453.4 and 515.8 near the city of Wenatchee, Washington. These projects impact anadromous fish primarily by impeding up and downstream passage of fish and inundating riverine habitat. NMFS published notice of a Draft Environmental Impact Statement (DEIS) pursuant to the National Environmental Policy Act (NEPA) on December 29, 2000 and received public comment through May 1, 2001. The DEIS evaluated the previous version of the Anadromous Fish Agreements and HCPs. The revised permit applications and Anadromous Fish Agreements and HCPs, which are the subject of this notice, reflect revisions developed to address comments received on the DEIS and to clarify the PUDs responsibilities. NMFS will publish a final EIS which addresses comments received on the DEIS and additional comments received pursuant to this notice. All comments received will become part of the public record and will be available for review pursuant to the ESA.
