#### SUPPLEMENTARY INFORMATION:

## TIME LIMITS:

### Statutory Time Limits

Section 735(a)(1) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue (1) the final determination regarding sales at less than fair value (LTFV) in this investigation within 75 days after the date of its preliminary determination. However, section 735(a)(2) of the Act states that the Department may extend the time limit for the final determination until not later than 135 days after the date of publication of the preliminary determination if, in the case of a proceeding in which the preliminary determination by the administering authority under section 733(b) was affirmative, a request in writing for such a postponement is made by an exporter which accounts for a significant portion of the exports of the merchandise which is subject to the investigation. Section 351.210 of the Department's regulations further states that the exporter must also request that the Department extend the provisional measures from a four month period to a period of not more than 6 months. Alternatively, in the case of a proceeding in which the preliminary determination by the administering authority under section 733(b) was negative, the request for postponement may be made in writing by the petitioner.

## Background

On May 9, 2002, the Department published the preliminary determination regarding sales at LTFV in this investigation (67 FR 31225). We preliminarily determined that certain cold-rolled carbon steel flat products (cold-rolled steel) from Korea are being, or likely to be, sold in the United States at LTFV, as provided in section 733(b) of the Tariff Act of 1930, as amended. On May 30, 2002, both respondents in this investigation, requested that the Department postpone the final determination to 135 days after the publication of the preliminary determination and requested that the Department extend the provisional measures period from four months to a period not longer than 6 months.

## Postponement of Final Determination

Given the fact that the Department made an affirmative preliminary determination and the largest exporter/producer of imports during the period of investigation requested postponement and also asked that the Department extend the provisional measures from a four month period to a period of not more than six months, as required by

the Department's regulations, we are postponing the final determination until no later than September 23, 2002 (i.e., 135 days after the publication of the preliminary determination).

This extension is in accordance with section 735(a)(2)(A) of the Act.

Dated: June 21, 2002

#### **Stainless Steel Sheet and Strip in Coils from the Republic of Korea: Notice of Final Results of Changed Circumstances Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of Final Results of Changed Circumstances Antidumping Duty Administrative Review.

**SUMMARY:** On December 31, 2001, the Department of Commerce ("Department") published the notice of preliminary results of its changed circumstances review examining whether INI Steel Company ("INI") is the successor-in-interest to Inchon Iron & Steel Co., Ltd. ("Inchon") by virtue of its name change. *See Notice of Preliminary Results of Changed Circumstances Antidumping Duty Administrative Review: Stainless Steel Sheet and Strip in Coils from the Republic of Korea*, 66 FR 67513 (December 31, 2001) ("Preliminary Results"). In those Preliminary Results, the Department found that INI is the successor-in-interest to Inchon and that INI and Sammi Steel Co. ("Sammi") remain separate legal entities.

After considering comments from interested parties, the Department continues to find that INI is the successor-in-interest to Inchon, and that INI should retain the deposit rate assigned to Inchon by the Department for all entries of the subject merchandise produced or exported by INI; and that INI's acquisition of Sammi has not changed the status of either company as separate legal entities. We have now completed this changed circumstances review in accordance with 19 C.F.R. 351.216 and 351.221(c)(3).

**EFFECTIVE DATE:** June 28, 2002.

**FOR FURTHER INFORMATION CONTACT:** Cheryl Werner or Laurel LaCivita, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-2667 and (202) 482-4243, respectively.

#### **Applicable Statute and Regulations**

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 ("the Act") by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations are to the regulations at 19 CFR Part 351 (2001).

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On October 1, 2001, the Department initiated this changed circumstances review.

*See Stainless Steel Sheet and Strip in Coils from the Republic of Korea: Notice of Initiation of Changed Circumstances Antidumping Duty Administrative Review*, 66 FR 49927 (October 1, 2001) ("Notice of Initiation"). On December 31, 2001, the Department published the preliminary results of its changed circumstances review in the above-named case. *See Preliminary Results*. We gave interested parties 21 days to comment on our preliminary results. On January 22, 2002, petitioners submitted comments and on January 28, 2002, INI submitted rebuttal comments. *See Comments* section below.

##### **Scope of the Review**

For purposes of this changed circumstances review, the products covered are certain stainless steel sheet and strip in coils. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. The subject sheet and strip is a flat-rolled product in coils that is greater than 9.5 mm in width and less than 4.75 mm in thickness, and that is annealed or otherwise heat treated and pickled or otherwise descaled. The subject sheet and strip may also be further processed (e.g., cold-rolled, polished, aluminized, coated, etc.) provided that it maintains the specific dimensions of sheet and strip following such processing.

The merchandise subject to this review is classified in the *Harmonized Tariff Schedule of the United States* (HTSUS) at subheadings: 7219.13.0031, 7219.13.0051, 7219.13.0071,

Although the HTSUS subheadings are provided for convenience and Customs purposes, the Department's written description of the merchandise under review is dispositive.

Excluded from the scope of this review are the following: (1) sheet and strip that is not annealed or otherwise heat treated and pickled or otherwise descaled, (2) sheet and strip that is cut to length, (3) plate (i.e., flat-rolled stainless steel products of a thickness of 4.75 mm or more), (4) flat wire (i.e., cold-rolled sections, with a prepared edge, rectangular in shape, of a width of not more than 9.5 mm), and (5) razor blade steel. Razor blade steel is a flat-rolled product of stainless steel, not further worked than cold-rolled (cold-reduced), in coils, of a width of not more than 23 mm and a thickness of 0.266 mm or less, containing, by weight, 12.5 to 14.5 percent chromium, and certified at the time of entry to be used in the manufacture of razor blades. *See Chapter 72 of the HTSUS*, "Additional U.S. Note" 1(d).

The Department has determined that certain additional specialty stainless steel products are also excluded from the scope of this review. These excluded products are described below.

Flapper valve steel is excluded from this review. Flapper valve steel is defined as stainless steel strip in coils

<sup>1</sup> Due to changes to the HTSUS numbers in 2001, 7219.13.0030, 7219.13.0050, 7219.13.0070, and 7219.13.0080 are now 7219.13.0031, 7219.13.0051, 7219.13.0071, and 7219.13.0081, respectively.
