

Safety is also delegated authority to respond to a manufacturer's petition for exemption from 49 U.S.C. Chapter 301's notification and remedy requirements in connection with a defect or noncompliance concerning labeling errors; extend comment periods (both self-initiated and in response to a petition for extension of time) for noncontroversial rulemakings; make technical amendments or corrections to a final rule; extend the effective date of a noncontroversial final rule; administer the NHTSA enforcement program for all laws, standards, and regulations pertinent to vehicle safety, fuel economy, theft prevention, damageability, consumer information and odometer fraud, authorized under Chapters 301, 323, 325, 327, 329, and 331 of title 49, United States Code; issue regulations relating to the importation of motor vehicles under sections 30141 through 30147 of title 49, United States Code; and grant and deny petitions for import eligibility determinations submitted to NHTSA by motor vehicle manufacturers and registered importers under 49 U.S.C. 30141.

(g) *Senior Associate Administrator for Traffic Injury Control.* The Senior Associate Administrator for Traffic Injury Control is delegated authority for executive direction of the Associate Administrator for Program Development and Delivery and the Associate Administrator for Injury Control Operations and Resources. To carry out this direction, the Senior Associate Administrator for Traffic Injury Control is delegated authority, except for authority reserved to the Administrator, over programs with respect to: Chapter 4 of title 23, United States Code, as amended; the authority vested by section 210(2) of the Clean Air Act, as amended (42 U.S.C. 7544(2)); the authority vested by 49 U.S.C. 20134(a), with respect to the laws administered by the Administrator pertaining to highway, traffic, and motor vehicle safety; the Act of July 14, 1960, as amended (23 U.S.C. 313 note) and 49 U.S.C. Chapter 303; the authority vested by section 157(g) of title 23, United States Code; the authority vested by sections 153, 154, 157(except paragraph (g)), 161, 163, and 164 of title 23, United States Code, with the concurrence of the Federal Highway Administrator; and section 209 of the Surface Transportation Assistance Act of 1978 (23 U.S.C. 401 note) as delegated by the Secretary in § 501.2(i). The Senior Associate Administrator for Traffic Injury Control is also delegated authority to exercise the powers and perform the duties of the Administrator with respect to State

and community highway safety programs under 23 U.S.C. 402, including approval and disapproval of State highway safety plans and final vouchers, in accordance with the procedural requirements of the Administration; to approve the awarding of alcohol incentive grants to the States under 23 U.S.C. 408 and drunk driving prevention grants under 23 U.S.C. 410, for years subsequent to the initial awarding of such grants by the Administrator; as appropriate for activities benefiting states and communities; and to implement 23 U.S.C. 403.

* * * * *

Amendments Effective October 3, 2002

§ 501.3 [Amended]

5. Effective October 3, 2002, § 501.3 is amended by removing and reserving paragraph (a)(3).

6. Effective October 3, 2002, § 501.4 is revised to read as follows:

§ 501.4 Succession to Administrator.

The following officials, in the order indicated, shall act in accordance with the requirements of 5 U.S.C. 3346–3349 as Administrator of the National Highway Traffic Safety Administration, in the case of the absence or disability or in the case of a vacancy in the office of the Administrator, until a successor is appointed:

- (a) Deputy Administrator;
- (b) Chief Counsel;
- (c) Senior Associate Administrator for Policy and Operations;
- (d) Senior Associate Administrator for Vehicle Safety; and
- (e) Senior Associate Administrator for Traffic Injury Control.

§ 501.8 [Amended]

7. Effective October 3, 2002, § 501.8 is amended by removing and reserving paragraph (b).

Issued on June 26, 2002.

Jeffrey W. Runge,
Administrator.

National Highway Traffic Safety Administration

49 CFR Part 541

[Docket No. NHTSA–2002–12497]

RIN 2127–A174

Federal Motor Vehicle Theft Prevention Standard; Final Listing of Model Year 2003 High-Theft Vehicle Lines

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Final rule.

SUMMARY: This final rule announces NHTSA's determination for model year (MY) 2003 high-theft vehicle lines that are subject to the parts-marking requirements of the Federal motor vehicle theft prevention standard, and high-theft MY 2003 lines that are exempted from the parts-marking requirements because the vehicles are equipped with antitheft devices determined to meet certain statutory criteria pursuant to the statute relating to motor vehicle theft prevention.

EFFECTIVE DATE: The amendment made by this final rule is effective July 1, 2002.

FOR FURTHER INFORMATION CONTACT: Ms. Rosalind Proctor, Consumer Programs Division, Office of Planning and Consumer Programs, NHTSA, 400 Seventh Street, SW., Washington, DC 20590. Ms. Proctor's telephone number is (202) 366–0846. Her fax number is (202) 493–2290.

SUPPLEMENTARY INFORMATION: The Anti Car Theft Act of 1992, Pub. L. 102–519, amended the law relating to the parts-marking of major component parts on designated high-theft vehicle lines and other motor vehicles. The Anti Car Theft Act amended the definition of “passenger motor vehicle” in 49 U.S.C. 33101(10) to include a “multipurpose passenger vehicle or light duty truck when that vehicle or truck is rated at not more than 6,000 pounds gross vehicle weight.” Since “passenger motor vehicle” was previously defined to include passenger cars only, the effect of the Anti Car Theft Act is that certain multipurpose passenger vehicle (MPV) and light-duty truck (LDT) lines may be determined to be high-theft vehicles subject to the Federal motor vehicle theft prevention standard (49 CFR part 541).

The purpose of the theft prevention standard is to reduce the incidence of motor vehicle theft by facilitating the

tracing and recovery of parts from stolen vehicles. The standard seeks to facilitate such tracing by requiring that vehicle identification numbers (VINs), VIN derivative numbers, or other symbols be placed on major component vehicle parts. The theft prevention standard requires motor vehicle manufacturers to inscribe or affix VINs onto covered original equipment major component parts, and to inscribe or affix a symbol identifying the manufacturer and a common symbol identifying the replacement component parts for those original equipment parts, on all vehicle lines selected as high-theft.

The Anti Car Theft Act also amended 49 U.S.C. 33103 to require NHTSA to promulgate a parts-marking standard applicable to major parts installed by manufacturers of "passenger motor vehicles (other than light duty trucks) in not to exceed one-half of the lines not designated under 49 U.S.C. 33104 as high-theft lines." Section 33103(a) further directed NHTSA to select only lines not designated under § 33104 of this title as high theft lines. NHTSA lists each of these selected lines in Appendix B to Part 541. Since § 33103 did not specify marking of replacement parts for below-median lines, the agency does not require marking of replacement parts for these lines. NHTSA published a final rule amending 49 CFR part 541 to include the definitions of MPV and LDT, and major component parts. See 59 FR 64164, [December 13, 1994.]

49 U.S.C. 33104(a)(3) specifies that NHTSA shall select high-theft vehicle lines, with the agreement of the manufacturer, if possible. Section 33104(d) provides that once a line has been designated as likely high-theft, it remains subject to the theft prevention standard unless that line is exempted under § 33106. Section 33106 provides that a manufacturer may petition to have a high-theft line exempted from the requirements of § 33104, if the line is equipped with an antitheft device as standard equipment. The exemption is granted if NHTSA determines that the antitheft device is likely to be as effective as compliance with the theft prevention standard in reducing and deterring motor vehicle thefts.

The agency annually publishes the names of the lines which were previously listed as high-theft, and the lines which are being listed for the first time and will be subject to the theft prevention standard beginning in a given model year. It also identifies those lines that are exempted from the theft prevention standard for a given model year under § 33104. Additionally, this listing identifies those lines (except light-duty trucks) in Appendix B to Part

541 that have theft rates below the 1990/1991 median theft rate but are subject to the requirements of this standard under § 33103.

On August 3, 2001, the final listing of high-theft lines for the MY 2002 vehicle lines was published in the **Federal Register** (66 FR 40622). The final listing identified four vehicle lines that were listed for the first time and became subject to the theft prevention standard beginning with the 2002 model year.

For MY 2003, the agency identified five new vehicle lines that are likely to be high-theft lines, in accordance with the procedures published in 49 CFR part 542. The new lines are the Honda Pilot, the Nissan Infiniti M45, the Subaru Baja, the Toyota Lexus GX 470 and the Toyota Matrix. The agency was also informed by General Motors that its Saturn SC vehicle line has been renamed the Saturn ION vehicle line beginning with the 2003 model year. In addition to these five vehicle lines, the list of high-theft vehicle lines includes all lines previously designated as high-theft and listed for prior model years.

Subsequent to publishing the MY 2002 final rule, the agency was informed by DaimlerChrysler, Inc., (Daimler/Chrysler) that its Jeep Cherokee vehicle line was replaced by the Jeep Liberty vehicle line beginning with the 2002 model year. Accordingly, Appendix A has also been amended to reflect these changes.

The list of lines that have been exempted by the agency from the parts-marking requirements of part 541 includes high-theft lines newly exempted in full beginning with MY 2003. The five vehicle lines newly exempted in full are the BMW (confidential nameplate) vehicle line which replaces its Z3 vehicle line, the General Motors Pontiac Grand Prix, the Isuzu Axiom, the Nissan Infiniti G35 and the Mazda 6 vehicle line. The vehicle lines listed as being subject to the parts-marking standard have previously been designated as high-theft lines in accordance with the procedures set forth in 49 CFR part 542. Under these procedures, manufacturers evaluate new vehicle lines to conclude whether those new lines are likely to be high theft. The manufacturer submits these evaluations and conclusions to the agency, which makes an independent evaluation; and, on a preliminary basis, determines whether the new line should be subject to the parts-marking requirements. NHTSA informs the manufacturer in writing of its evaluations and determinations, together with the factual information considered by the agency in making them. The manufacturer may request the

agency to reconsider the preliminary determinations. Within 60 days of the receipt of these requests, the agency makes its final determination. NHTSA informs the manufacturer by letter of these determinations and its response to the request for reconsideration. If there is no request for reconsideration, the agency's determination becomes final 45 days after sending the letter with the preliminary determination. Each of the new lines on the high-theft list has been the subject of a final determination under either 49 U.S.C. 33103 or 33104.

The vehicle lines listed as being exempt from the standard have previously been exempted in accordance with the procedures of 49 CFR part 543 and 49 U.S.C. 33106.

Similarly, the low-theft lines listed as being subject to the parts-marking standard have previously been designated in accordance with the procedures set forth in 49 U.S.C. 33103.

Therefore, NHTSA finds for good cause that notice and opportunity for comment on these listings are unnecessary. Further, public comment on the listing of selections and exemptions is not contemplated by 49 U.S.C. Chapter 331.

For the same reasons, since this revised listing only informs the public of previous agency actions and does not impose additional obligations on any party, NHTSA finds for good cause that the amendment made by this notice should be effective as soon as it is published in the **Federal Register**.

Regulatory Impacts

1. Costs and Other Impacts

NHTSA has analyzed this rule and determined that it is not "significant" within the meaning of the Department of Transportation's regulatory policies and procedures. The agency has also considered this notice under Executive Order 12866. As already noted, the selections in this final rule have previously been made in accordance with the provisions of 49 U.S.C. 33104, and the manufacturers of the selected lines have already been informed that those lines are subject to the requirements of 49 CFR part 541 for MY 2003. Further, this listing does not actually exempt lines from the requirements of 49 CFR part 541; it only informs the general public of all such previously granted exemptions. Since the only purpose of this final listing is to inform the public of actions for MY 2003 that the agency has already taken, a full regulatory evaluation has not been prepared.

2. Regulatory Flexibility Act

The agency has also considered the effects of this listing under the Regulatory Flexibility Act. I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities. As noted above, the effect of this final rule is simply to inform the public of those lines that are already subject to the requirements of 49 CFR part 541 for MY 2003. The agency believes that the listing of this information will not have any economic impact on small entities.

3. Environmental Impacts

In accordance with the National Environmental Policy Act of 1969, the agency has considered the environmental impacts of this rule, and determined that it will not have any

significant impact on the quality of the human environment.

4. Federalism

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that this final rule does not have sufficient Federalism implications to warrant the preparation of a Federalism Assessment.

5. Civil Justice Reform

This final rule does not have a retroactive effect. In accordance with § 33118 when the Theft Prevention Standard is in effect, a State or political subdivision of a State may not have a different motor vehicle theft prevention standard for a motor vehicle or major replacement part. 49 U.S.C. 33117 provides that judicial review of this rule may be obtained pursuant to 49 U.S.C.

32909. Section 32909 does not require submission of a petition for reconsideration or other administrative proceedings before parties may file suit in court.

List of Subjects in 49 CFR Part 541

Administrative practice and procedure, Labeling, Motor vehicles, Reporting and recordkeeping requirements.

In consideration of the foregoing, 49 CFR part 541 is amended as follows:

PART 541—[AMENDED]

1. The authority citation for part 541 continues to read as follows:

Authority: 49 U.S.C. 33102–33104 and 33106; delegation of authority at 49 CFR 1.50.

2. In Part 541, Appendices A and A–I, are revised to read as follows:

APPENDIX A TO PART 541—LINES SUBJECT TO THE REQUIREMENTS OF THIS STANDARD

Manufacturer	Subject lines

BILLING CODE 4910-59-P

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

49 CFR Part 659

[FTA 2002-11449]

RIN 2132-AA69

Rail Fixed Guideway Systems; State Safety Oversight

ACTION: Withdrawal of direct final rule.

SUMMARY: The Federal Transit Administration (FTA) is withdrawing the direct final rule that revised the definition of “accident” as used in 49 CFR part 659 due to the receipt of adverse comments. FTA noted in the direct final rule published in the **Federal Register** on April 3, 2002 (67 FR 15725) that the rule would be

withdrawn and would not take effect if an adverse comment was received on or before June 3, 2002. The Missouri Department of Economic Development, Division of Motor Carrier and Railroad Safety submitted an adverse comment dated May 30, 2002; therefore, the direct final rule will not become effective on July 2, 2002. FTA is reviewing 49 CFR part 659 and plans to publish a notice of proposed rulemaking in November 2002.

DATES: This withdrawal is effective July 1, 2002.

FOR FURTHER INFORMATION CONTACT: For questions regarding this notice, contact Jerry Fisher or Roy Field, Office of Safety and Security, FTA, telephone 202-366-2233, fax 202-366-7951. For questions on viewing or submitting material to the docket, contact Dorothy Beard, Chief, Dockets, Department of Transportation, telephone 202-366-9329.

SUPPLEMENTARY INFORMATION: On April 3, 2002, FTA published a direct final rule (64 FR 15725) amending 49 CFR Part 659 by removing the term “accident” under this section and

adding in its place the definition and term “major incident” to be effective July 2, 2002. This action was taken because FTA’s review of the National Transit Database (NTD), as mandated by the Department of Transportation’s FY 2000 Appropriations Act, resulted in revisions of the Safety and Security Module of the NTD “Reporting Manual for 2002”. FTA solicited input from NTD stakeholders, which include rail transit agencies reporting to State Oversight Agencies as required by the State Safety Oversight regulations.

FTA believes that two accident/incident reporting definitions would cause confusion, generate inconsistent data, and create an additional burden for rail transit reporters. FTA stated in the preamble of the direct final rule it had solicited input from NTD stakeholders, including rail transit agencies reporting to State Oversight Agencies. However, as noted by the Missouri Department of Economic Development, Division of Motor Carrier and Railroad Safety, FTA did not solicit input from it, a state agency directly responsible for safety oversight of transit agencies within the state.
