II. Background

A. Purpose of the Meeting

The FIFRA SAP will meet to consider and review the design and scientific soundness of the Agency's draft Termite Bait Product Performance Testing Guideline, OPPTS 810.3800 - Termite Baits. The guideline outlines both the testing methodologies and performance standards for efficacy data submitted to EPA to allow evaluation of the performance of termite bait products.

The use of termite bait products has emerged as an important method of termite control. Because of the highly specialized nature of termite baits, a number of evaluation issues have arisen in the past 6 years, including minimum product performance standards needed for termite bait product registration. This meeting of the FIFRA SAP will provide a forum for experts and the public to comment on the product performance standards and testing protocols proposed by the Agency to address these and other issues related to termite bait products.

B. The FIFRA SAP Meeting Minutes

FIFRA SAP will prepare a report of its recommendations to the Agency in approximately 60 days. The meeting minutes will be posted on the FIFRA SAP web site or may be obtained by contacting the Public Information and Records Integrity Branch at the address

or telephone number listed in Unit I. of the **SUPPLEMENTARY INFORMATION**.
