AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a current valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR part 32—Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material.

3. *The form number if applicable:* Not applicable.

4. *How often the collection is required:* There is a one-time submittal of information to receive a license. Renewal applications are submitted every 10 years. In addition, recordkeeping must be performed on an on-going basis, and reports of transfer of byproduct material must be reported every 10 years.

5. *Who will be required or asked to report:* All specific licensees who

manufacture or initially transfer items containing byproduct material for sale or distribution to general licensees or persons exempt from licensing.

6. *An estimate of the number of responses:* 3,502.

7. *The estimated number of annual respondents:* 194 NRC licensees and 491 Agreement State licensees.

8. *An estimate of the number of hours needed annually to complete the requirement or request:* 151,644 (53,012 hours for NRC licensees [4,507 reporting + 48,505 hours recordkeeping]) or an average of 273 hours per licensee and (98,632 hours for Agreement State licensees [3,210 hours reporting + 95,422 hours recordkeeping]) or 201 hours per Agreement State licensee.

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* 10 CFR part 32 establishes requirements for specific licenses for the introduction of byproduct material into products or materials and transfer of the products or materials to general licensees or persons exempt from licensing. It also prescribes requirements governing holders of the specific licenses. Some of the requirements are for information which must be submitted in an application for a specific license, records which must be kept, reports which must be submitted, and information which must be forwarded to general licensees and persons exempt from licensing. In addition, 10 CFR part 32 prescribes requirements for the issuance of certificates of registration (concerning radiation safety information about a product) to manufacturers or initial transferors of sealed sources and devices. Submission or retention of the information is mandatory for persons subject to the 10 CFR part 32 requirements. The information is used by NRC to make licensing and other regulatory determinations concerning the use of radioactive byproduct material in products and devices.

OFFICE OF PERSONNEL MANAGEMENT

Proposed Collection; Comment Request for Review of a New Information Collection System

AGENCY: Office of Personnel
Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), 5 CFR 1320.5(a)(1)(iv), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget a request for review of a new information collection. 5 CFR part 317 provides regulations for the administration of a Senior Executive Service. As a part of that Service, a Senior Executive Service Senior Opportunity and Resume System (SOARS) is to be established for the purpose of facilitating the mobility of executives across the Federal government. This System will be collecting resume data from SES members for the purpose of matching this data with available position vacancies for executives.

It is estimated, based upon the pilot that is being used, that 300 short resumes will be completed in the first year of the program. Each resume will take about 30 minutes to complete for an annual estimated burden of 150 hours.

Comments are particularly invited on:

- Whether this collection of information is necessary for the proper performance of functions of the Office of Personnel Management, and whether it will have practical utility;
- Whether our estimate of the public burden of this collection of information is accurate and based on valid assumptions and methodology; and

- Ways in which we can minimize the burden of the collection of information on those who respond through the use of appropriate technological collection techniques or other forms of information technology.
