BILLING CODE 4910-59-P

represent any agency decision or other exercise of judgment concerning the merits of the application.

The noncompliant vehicles were produced and sold with brake warning indicators that do not meet certain requirements mandated by FMVSS No. 135. Paragraph S5.5.5(a) of FMVSS No. 135 requires that all vehicles be equipped with a brake warning indicator lamp. The standard enumerates specific minimum parameters applicable to the warning:

Each visual indicator shall display a word or words in accordance with the requirements of Standard No. 101 (49 CFR 571.101) [i.e., "Brake"] and this section, which shall be legible to the driver under all daytime and nighttime conditions when activated. Unless otherwise specified, the words shall have letters not less than 3.2 mm (1/8 inch) high and the letters and background shall be of contrasting colors, one of which is red. Words and symbols in addition to those required by Standard No. 101 and this section may be provided for purposes of safety.

The affected vehicles are equipped with a "Brake" indicator warning lamp located in the upper right hand corner of the speedometer display. The letters in the indicator warning "BRAKE" were changed from all upper case letters to mixed upper and lower case letters. As a result, the letters "B" and "k" in the "Brake" indicator lamp meet the minimum height requirements of FMVSS No. 135, but the letters "r," "a," and "e" are  $\frac{7}{10}$  mm shorter than the minimum 3.2 mm requirements. MBUSA does not believe that the  $\frac{7}{10}$  mm difference is discernable by the average driver for the following reasons:

1. The "Brake" warning indicator is still easily recognizable due to its positioning on the dashboard, the color of the indicator and other factors.

2. In addition to the "Brake" warning indicator, each of the affected Mercedes-Benz vehicles is also equipped with a dual screen message center that provides brake system information in a highly visible and audible manner.

MBUSA believes that the noncompliance is inconsequential to motor vehicle safety, and no corrective action is warranted. Interested persons are invited to submit written data, views, and arguments on the application described above. Comments should refer to the docket number and be submitted to: U.S. Department of Transportation, Docket Management, Room PL-401, 400 Seventh Street SW., Washington, DC 20590. It is requested that two copies be submitted.

All comments received before the close of business on the closing date indicated below will be considered. The

application and supporting materials, and all comments received after the closing date, will also be filed and will be considered to the extent possible. When the application is granted or denied, notice of the decision will be published in the **Federal Register** pursuant to the authority indicated below. Comment closing date: August 7, 2002.

## DEPARTMENT OF TRANSPORTATION

### National Highway Traffic Safety Administration

#### Petition for Exemption from the Vehicle Theft Prevention Standard; BMW

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

**ACTION:** Grant of petition for exemption.

**SUMMARY:** This document grants in full the petition of BMW of North America, LLC (BMW) for an exemption of a high-theft line, the BMW [confidential nameplate], from the parts-marking requirements of the Federal Motor Vehicle Theft Prevention Standard. The BMW vehicle line will replace the current Z3 vehicle line. This petition is granted because the agency has determined that the antitheft device to be placed on the line as standard equipment is likely to be as effective in reducing and deterring motor vehicle theft as compliance with the parts-marking requirements of the Theft Prevention Standard. BMW requested confidential treatment for some of the information submitted in support of its petition. The agency will address BMW's request for confidential treatment by separate letter.

**DATES:** The exemption granted by this notice is effective beginning with the 2003 model year (MY).

**FOR FURTHER INFORMATION CONTACT:** Ms. Rosalind Proctor, Office of Planning and Consumer Programs, NHTSA, 400 Seventh Street SW, Washington, DC 20590. Ms. Proctor's telephone number is (202) 366-0846. Her fax number is (202) 493-2290.

**SUPPLEMENTAL INFORMATION:** In a petition dated May 17, 2002, BMW of North America, LLC (BMW), requested

### National Highway Traffic Safety Administration

[Docket No. NHTSA-2002-12544; Notice 1]

### Mercedes-Benz, U.S.A., Inc., Receipt of Application for Decision of Inconsequential Noncompliance

Mercedes-Benz, U.S.A., Inc., (MBUSA) has determined that a limited number of model year 2003 Mercedes-Benz SL-Class, E-Class and CLK-Class vehicles it produced and sold is not in full compliance with 49 CFR 571.135, Federal Motor Vehicle Safety Standard (FMVSS) No. 135, "Passenger Car Brake Systems," and has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports." MBUSA has also applied to be exempted from the notification and remedy requirements of 49 U.S.C. Chapter 301—"Motor Vehicle Safety" on the basis that the noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of an application is published under 49 U.S.C. 30118 and 30120 and does not
