

Purpose

The purpose of the meeting is to provide the NCVHS Work Group on Quality with expert opinion and information about the adequacy of existing health data systems for supporting quality measurement at the individual practitioner level and to identify needed improvements in existing data and data collection mechanisms. The scope of interest includes administrative data, vital records data, medical records data and survey data. At the meeting, an invited panel of experts will provide their perspectives on these issues.

In addition, the Work Group will hear from invited panels of experts about topic areas to be included in the National Healthcare Quality Report, including the Preliminary Measure Set for the report now under development within the Agency for Healthcare Research and Quality. The AHRQ Preliminary Measure Set will be available on the AHRQ website after July 12. The Institute of Medicine has recommended a framework and criteria for selecting measures for the National Healthcare Quality Report, and AHRQ has prepared a draft list of proposed topic areas and measures to be included. Information about the AHRQ Preliminary Measure Set may be obtained by contacting: Ed Kelly, Ph.D., Senior Service Fellow, National Healthcare Quality Report, Center for Quality Improvement and Patient Safety, Agency for Healthcare Research and Quality, 6011 Executive Boulevard, Suite 200, Rockville, MD 20852, ekelly@ahrq.gov

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 498-1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

Reader Evaluations of Public Health Assessments and Other Products (OMB No. 0923-0016)—Reinstatement with changes—The Agency for Toxic Substances and Disease Registry (ATSDR) is mandated pursuant to the 1980 Comprehensive Environmental Response Compensation and Liability Act (CERCLA) and its 1986 Amendments, The Superfund Amendments and Reauthorization Act (SARA), to perform health assessments for each facility on the National Priorities List and for releases or facilities where individuals have been exposed to a hazardous substance. In addition, ATSDR provides consultations on health issues relating to exposure to

hazardous or toxic substances to officials at the Environmental Protection Agency (EPA), and state and local government. The principal audiences for these products are health professionals at the federal, state, and local levels, staff in public libraries and repositories, interested private sector organizations and groups, and members of the public.

In order to make ATSDR products such as health assessments, consultations, exposure investigations, and fact sheets timely and relevant, ATSDR staff developed a survey questionnaire (OMB 0923-0016) to get readers' opinions and evaluations. The survey will be inserted and mailed in each public health assessment. In addition, electronic surveys will be sent

to clients and partners requesting ATSDR health consultations and exposure investigations within 1 month following delivery of product or service. The survey collects information on (a) affiliation of users, (b) timeliness and effectiveness of these products, and (c) practical utility of these products.

The reader evaluation surveys provide important feedback that enables ATSDR staff to maintain the utility, integrity and standards of its products. Gathering client feedback ensures that appropriate information is included in these documents and assists in maintaining medical and scientific usefulness. The information will be used to maintain customer satisfaction with these products. There is no cost to respondents.

Respondents	Number of respondents	Responses/ respondent	Average burden/ response (in hours)	Total burden (in hours)
Community member reviewing public health assessments	130	1	15/60	32.5
