Exelon Generation Company, LLC, Dresden Nuclear Power Station, Unit 1; Exemption

The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (NRC, the Commission) now or hereafter in effect.

The licensee at that time, Commonwealth Edison, informed the NRC that it had decided to permanently cease operations at DNPS, Unit 1, and that all fuel had been permanently removed from the reactor. In accordance with 10 CFR 50.82, upon docketing of the certifications in August 31, 1984, the facility operating license no longer authorizes the licensee to operate the
