The statute provides for continuation of benefits for wage loss and/or for permanent impairment to a scheduled member, arising out of a work related injury or disease. The Act outlines the elements of pay which are to be included in an individual's pay rate, and sets forth various other criteria for determining eligibility to and the amount of benefits, including augmentation of basic compensation for individuals with qualifying dependents; a requirement to report any earnings during a period that

compensation is claimed; a prohibition against concurrent receipt of FECA benefits and benefits from OPM or certain VA benefits; and a mandate that money collected from a liable third party found responsible for the injury for which compensation has been paid be applied to benefits paid or payable. The CA 7 is used to claim compensation and the other forms in this clearance collect medical information necessary to determine entitlement to benefits under the FECA. Without the requested information, an eligible beneficiary could be denied benefits, or benefits could be authorized at an incorrect rate,

resulting in an underpayment or overpayment of compensation.
