Rural Utilities Service

Southern Intertie Project; Notice of Availability of a Final Environmental Impact Statement

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of availability of a final environmental impact statement.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS) has released for public review the Final Environmental Impact Statement (FEIS) for the Southern Intertie Project. The project, being proposed by the Intertie Participants Group (IPG), is the construction of a 138 kilovolt (kV) transmission line between the Kenai Peninsula and Anchorage, Alaska. The RUS is the lead Federal agency in the environmental review process. The U.S. Fish and Wildlife Service (USFWS) and the U.S. Army Corps of Engineers (USACE) are serving as cooperating agencies.

FOR FURTHER INFORMATION CONTACT:
Lawrence R. Wolfe, Senior Environmental Protection Specialist, Engineering and Environmental Staff, USDA Rural Utilities Service, Stop 1571, 1400 Independence Avenue, SW, Washington, DC 20250-1571, telephone (202) 720-1784, fax (202) 720-0820. The E-mail address is: l Wolfe@rus.usda.gov.

SUPPLEMENTARY INFORMATION: The IPG has proposed a new 138 kV transmission line in order to improve the overall Railbelt electrical system reliability and energy transfer capabilities between the Kenai Peninsula and Anchorage. The IPG proposed alternative, the Enstar Route, would connect the Soldotna Substation on the Kenai Peninsula with the International Substation in Anchorage. This alternative would parallel the Enstar Pipeline through the Kenai National Wildlife Refuge (KNWR). The environmentally preferred alternative, the Tesoro Route, would connect the Bernice Lake Substation on the Kenai Peninsula with the Pt. Woronzof Substation in Anchorage. This alternative would parallel the Tesoro Pipeline from the Captain Cook State Recreational Area to Pt. Possession. The Draft Environmental Impact Statement (DEIS) analyzed the potential impacts of constructing and operating a 138 kV transmission line along both the Enstar and Tesoro Routes. The DEIS also evaluated a number of routing alternatives and related system improvements between the proposed substation connections, in addition to

alternative technologies and the no-action alternative.

Notices of availability of the DEIS were published in the **Federal Register** on October 3, 2001 (66 FR 50396) by RUS and on October 5, 2001 (66 FR 51036) by EPA. The 60-day comment period on the DEIS ended on December 5, 2001.

As required by Title XI of Alaska National Interest Lands Conservation Act, public hearings were held on the DEIS in the District of Colombia on October 30, 2001, and within the State of Alaska, in Anchorage, on November 13, 2001, and in Soldotna, on November 14, 2001.

Public testimony at the three hearings was received from 12 persons. During the 60-day comment period, a total of 102 different comment letters were received from Federal, State, and municipal agencies, businesses, native corporations, non-profit organizations, and individuals. Two of the letters were e-mail form letters signed by 158 and 907 individuals, respectively, and one letter was in petition format with 12 signatures. The actual number of commentors was 1,174.

The FEIS incorporates information received on the DEIS and consists of two volumes. Volume I consists of an expanded Project Summary, responses to comments, including copies of the original correspondence, supplemental information, and corrections to the DEIS. The USFWS Compatibility Determination and the USACE Draft Evaluation of the Section 404(b)(1) Permit Application are appended to this volume. Volume II consists of the mitigation plan that was developed to either eliminate or minimize impacts associated with the construction and operation the proposed project utilizing either the Enstar or Tesoro Routes.

Copies of the FEIS have been sent to agencies, organizations, and individuals that received the DEIS. Additional copies of the FEIS are available for public review at the following public libraries in Anchorage: Z.J. Loussac Public Library; Chugiak-Eagle Public Library; Gerrish (Girdwood) Branch Library; Mountain View Branch Library; Muldoon Branch Library; and the Samson-Dimond Public Library. Copies will also be available for review at the following libraries on the Kenai Peninsula: Hope Community Library; Cooper Landing Community Library; Soldotna Public Library; and Kenai Community Library. In Washington, DC, copies are available for review at RUS offices. The FEIS is available online at <http://www.usda.gov/rus/water/ees/eis.htm>.

The FEIS is an informational document only. The purpose of the FEIS is to provide the public and decision makers' information on the potential environmental effects of the alternatives under consideration. The RUS, along with the USFWS and USACE, will consider information contained in the FEIS in rendering their respective decisions, which will be published in each agency's respective Record of Decision (ROD). A copy of the RUS ROD will be available online at the previously identified web site. A notice of availability of the ROD will be published in the **Federal Register** and in local Alaska newspapers.

Dated: July 1, 2002.

Blaine D. Stockton,

Assistant Administrator, Electric Program,
Rural Utilities Service.

BILLING CODE 3410-15-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for emergency clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Office of the Secretary.

Title: DOC Postsecondary Internship Program Intern Evaluation Survey.

Form Number(s): CD-577.

OMB Approval Number: None.

Type of Request: Emergency submission.

Burden Hours: 75.

Number of Respondents: 150.

Average Hours Per Response: 30 minutes.

Needs and Uses: The Office of Executive Budgeting and Assistance Management (OEBAM) manages the U.S. Department of Commerce (DOC) Postsecondary Internship Program. The program is competitively awarded and funded by cooperative agreements with the purpose of providing experiential training opportunities for postsecondary students at DOC and other partner federal agencies. The program is administered through a partnership between DOC and non-profit and/or educational institutions. The information collected from the survey will assist in program improvements and implement performance measures for strategic planning.

Affected Public: Individuals or households, not-for-profit institutions.

Frequency: Three times per year, during summer, fall and spring sessions.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482-3129, Department of Commerce, Room 6608, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at MClayton@doc.gov).

Written comments and recommendations for the proposed information collection should be sent by July 25, 2002 to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

Dated: July 3, 2002.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

International Trade Administration

[A-570-822]

Certain Helical Spring Lock Washers from the People's Republic of China; Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Preliminary Results of Antidumping Duty Administrative Review.

SUMMARY: We preliminarily find that helical spring lock washers from the People's Republic of China are not being sold in the United States below normal value by the Hangzhou Spring Washer Plant (also known as Zhejiang Wanxin Group, Ltd.). Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: July 10, 2002.

FOR FURTHER INFORMATION CONTACT: Sally Hastings, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-3464.

SUPPLEMENTARY INFORMATION:

Applicable Statute

Unless otherwise indicated, all citations to the statute are references to

the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930, as amended (the Act) by the Uruguay Round Agreements Act. Unless otherwise indicated, all citations to the Department of Commerce's (the Department's) regulations are to 19 CFR part 351 (2001).

Background

On October 19, 1993, the Department published the antidumping duty order on certain helical spring lock washers (HSLWs) from the People's Republic of China (PRC) (58 FR 53914). The Department notified interested parties of the opportunity to request an administrative review of this order on October 1, 2001 (66 FR 49923). The petitioner, Shakeproof Assembly Components Division of Illinois Tool Works, Inc., requested that the Department conduct an administrative review of Hangzhou Spring Washer Plant (also known as Zhejiang Wanxin Group Co. Ltd. (ZWG)), the predecessor firm to Hang Zhou Spring Washer Co., Ltd. (collectively Hangzhou), on October 30, 2001. The notice of initiation of this administrative review was published on November 21, 2001 (66 FR 58432).

On February 15, 2002, the petitioner timely requested verification for "good cause" pursuant to 19 CFR 351.307(b)(iv). On March 8, 2002, Hangzhou responded to the Department's January 4, 2002, questionnaire. The Department, on April 18, 2002, provided parties with an opportunity to submit information regarding appropriate surrogate values. On May 9, 2002, both petitioner and Hangzhou submitted surrogate value comments. The Department issued a supplemental questionnaire to Hangzhou on June 3, 2002. Hangzhou submitted its supplemental questionnaire responses on June 17, 2002.

The Department is conducting this administrative review in accordance with section 751 of the Act.

Scope of the Order

The products covered by the order are HSLWs of carbon steel, of carbon alloy steel, or of stainless steel, heat-treated or non-heat-treated, plated or non-plated, with ends that are off-line. HSLWs are designed to: (1) function as a spring to compensate for developed looseness between the component parts of a fastened assembly; (2) distribute the load over a larger area for screws or bolts; and, (3) provide a hardened bearing surface. The scope does not include internal or external tooth washers, nor does it include spring lock
