

List of Subjects in 14 CFR Part 72

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In Consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120, E.O. 10854, 24 FR 95665, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9J, Airspace Designations and Reporting Points, dated August 31, 2001, and effective September 16, 2001, is amended as follows:

Paragraph 5000 Class D airspace
* * * * *

AGL MI D Marquette, MI [New]

Marquette, Sawyer International Airport, MI (Lat. 46°21'13" N., long. 87°23'45" W.)

That airspace extending upward from the surface to and including 3,700 feet MSL within a 4.6-mile radius of the Sawyer International Airport. This Class D airspace area is effective during the specific dates and times established in advance by Notice to Airmen. The effective date and time will thereafter be continually published in the Airport/Facility Directory.

* * * * *

Paragraph 6002 Class E airspace areas extending upward from the Surface of the earth.

* * * * *

AGL MI E2 Marquette, MI [Revised]

Marquette, Sawyer International Airport, MI (Lat. 46°21'13" N., long. 87°23'45" W.)

That airspace extending upward from the surface within a 4.6-mile radius of the Sawyer International Airport. This Class E airspace area is effective during the specific dates and times established in advance by Notice to Airmen. The effective date and time will thereafter be continually published in the Airport/Facility Directory.

[Airspace Docket No. 02–AGL–03]

Modifications of Class E Airspace; Jackson, OH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class E airspace at Jackson, OH. An Area Navigation (RNAV) Standard Instrument Approach Procedure (SIAP) to Runway (RWY) 01, and an RNAV SIAP to RWY 19 have been developed for James A. Rhodes Airport. Controlled airspace extending upward from 700 feet above the surface of the earth is needed to contain aircraft executing these approaches. This action increases the area of the existing controlled airspace for James A. Rhodes Airport.

EFFECTIVE DATE: 0901 UTC, October 3, 2002.

FOR FURTHER INFORMATION CONTACT: Denis C. Burke, Air Traffic Division, Airspace Branch, AGL–520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294–7568.

SUPPLEMENTARY INFORMATION:**History**

On Tuesday, April 2, 2002, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Jackson, OH. (67 FR 15503). The proposal was to modify controlled airspace extending upward from 700 feet above the surface of the earth to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005, of FAA Order 7400.9J dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Jackson,

OH, to accommodate aircraft executing instrument flight procedures into and out of James A. Rhodes Airport. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this, proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9J, Airspace Designations and Reporting Points, dated August 31, 2001, and effective September 16, 2001, is amended as follows:

* * * * *

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

AGL OH E5 Jackson, OH [Revised]

Jackson, James A. Rhodes Airport, OH (Lat. 38°58'53" N., long. 82°34'41" W.)

That airspace extending upward from 700 feet above the surface within a 7.5-mile radius of the James A. Rhodes Airport.

14 CFR Part 71

[Docket No. 02-AGL-02]

Modification of Class E Airspace; Tecumseh, MI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class E airspace at Tecumseh, MI. An Area Navigation (RNAV) Standard Instrument Approach Procedure (SIAP) to Runway (RWY) 13, and an RNAV SIAP to RWY 31 have been developed for Tecumseh Products Airport. Controlled airspace extending upward from 700 feet above the surface of the earth is needed to contain aircraft executing these approaches. This action increases the area of the existing controlled airspace at Meyers-Divers' Airport by adding a radius of controlled airspace around Tecumseh Products Airport.

EFFECTIVE DATE: 0901 UTC, October 3, 2002.

FOR FURTHER INFORMATION CONTACT: Denis C. Burke, Air Traffic Division, Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On Tuesday, April 2, 2002, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Tecumseh, MI (67 FR 15504) The proposal was to modify controlled airspace extending upward from 700 feet above the surface of the earth to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceedings by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace areas

extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005, of FAA Order 7400.9J dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Tecumseh, MI, to accommodate aircraft executing instrument flight procedures into and out of Tecumseh Products Airport. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this, proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Industry and Security Programs

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: On April 18, 2002, the Bureau of Export Administration changed its name to the Bureau of Industry and Security, and made conforming changes in its regulations (67 FR 20630, April 26, 2002). Consistent with that change, effective May 17, 2002, the names of the “Office of Chief Counsel for Export Administration” and the “Chief Counsel for Export Administration” were changed to the “Office of Chief Counsel for Industry and Security” and the “Chief Counsel for Industry and Security,” respectively. This rule makes appropriate conforming changes in chapter VII of title 15 of the Code of Federal Regulations to reflect these additional name changes.

DATES: This rule is effective as of May 17, 2002.
