

“significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket at the Federal Aviation Administration (FAA), Office of the Regional Counsel, Southwest Region, 2601 Meacham Blvd., Room 663, Fort Worth, Texas.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive to read as follows:

2002-14-01 Eurocopter France:

Amendment 39-12801. Docket No. 2001-SW-46-AD.

Applicability: Model AS332L and AS332L1 helicopters, with “SEFA” skis installed, certificated in any category.

Note 1: This AD applies to each helicopter identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For helicopters that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (b) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required before further flight, unless accomplished previously.

To prevent structural failure of a ski and subsequent loss of control of the helicopter, accomplish the following:

(a) Before the next flight with skis installed, add the limitations contained in SUP.10.14, Ski Installation, Normal Revision 2, Issue 2, dated June 2001 to the Limitations section of the applicable Rotorcraft Flight Manual.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Regulations Group, Rotorcraft Directorate, FAA. Operators shall submit their requests through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Regulations Group.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Regulations Group.

(c) Special flight permits may be issued in accordance with 14 CFR 21.197 and 21.199 to operate the helicopter to a location where the requirements of this AD can be accomplished.

(d) This amendment becomes effective on August 14, 2002.

Note 3: The subject of this AD is addressed in Direction General De L'Aviation Civile (France) AD 2001-316-079(A), dated July 25, 2001.

Issued in Fort Worth, Texas, on June 27, 2002.

David A. Downey,

Manager, Rotorcraft Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. 02-AGL-01]

Establishment of Class D Airspace; Marquette, MI; Modification of Class E Airspace; Marquette, MI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class D airspace at Marquette, MI, and modifies Class E airspace at Marquette, MI. The opening of a Federal Contract Tower is being planned for the Sawyer International Airport. Class D airspace is required during the hours the control tower is operating. Sawyer International Airport is served by Federal Aviation Regulations Part 121 (14 CFR part 121) air carrier operations. During periods when the control tower is closed, controlled airspace extending upward from the surface is needed to contain aircraft executing instrument flight procedures and provide a safer operating environment. This action establishes Class D airspace, and modifies Class E airspace for Sawyer International Airport.

EFFECTIVE DATE: 0901 UTC, October 3, 2002.

FOR FURTHER INFORMATION CONTACT: Denis C. Burke, Air Traffic Division, Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On Tuesday, April 2, 2002, the FAA proposed to amend 14 CFR part 71 to establish Class D and modify Class E airspace at Marquette, MI (67 FR 15502). The proposal was to establish Class D airspace, and modify Class E airspace, to support the operation of a Federal Contract Tower, and to provide a safer operating environment after the tower is closed. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class D airspace designations are published in paragraph 5000, and Class E airspace areas extending upward from the surface of the earth in paragraph 6002, of FAA Order 7400.9J dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 establishes Class D airspace and modifies Class E airspace at Marquette, MI, to support the operation of a Federal Contract Tower, and to provide a safer operating environment after the tower is closed. The areas will be depicted on appropriations aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 72

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In Consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120, E.O. 10854, 24 FR 95665, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9J, Airspace Designations and Reporting Points, dated August 31, 2001, and effective September 16, 2001, is amended as follows:

Paragraph 5000 Class D airspace
* * * * *

AGL MI D Marquette, MI [New]

Marquette, Sawyer International Airport, MI (Lat. 46°21'13" N., long. 87°23'45" W.)

That airspace extending upward from the surface to and including 3,700 feet MSL within a 4.6-mile radius of the Sawyer International Airport. This Class D airspace area is effective during the specific dates and times established in advance by Notice to Airmen. The effective date and time will thereafter be continually published in the Airport/Facility Directory.

* * * * *

Paragraph 6002 Class E airspace areas extending upward from the Surface of the earth.

* * * * *

AGL MI E2 Marquette, MI [Revised]

Marquette, Sawyer International Airport, MI (Lat. 46°21'13" N., long. 87°23'45" W.)

That airspace extending upward from the surface within a 4.6-mile radius of the Sawyer International Airport. This Class E airspace area is effective during the specific dates and times established in advance by Notice to Airmen. The effective date and time will thereafter be continually published in the Airport/Facility Directory.

BILLING CODE 4910–13–M

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Airspace Docket No. 02–AGL–03]

Modifications of Class E Airspace; Jackson, OH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class E airspace at Jackson, OH. An Area Navigation (RNAV) Standard Instrument Approach Procedure (SIAP) to Runway (RWY) 01, and an RNAV SIAP to RWY 19 have been developed for James A. Rhodes Airport. Controlled airspace extending upward from 700 feet above the surface of the earth is needed to contain aircraft executing these approaches. This action increases the area of the existing controlled airspace for James A. Rhodes Airport.

EFFECTIVE DATE: 0901 UTC, October 3, 2002.

FOR FURTHER INFORMATION CONTACT: Denis C. Burke, Air Traffic Division, Airspace Branch, AGL–520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294–7568.

SUPPLEMENTARY INFORMATION:**History**

On Tuesday, April 2, 2002, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Jackson, OH. (67 FR 15503). The proposal was to modify controlled airspace extending upward from 700 feet above the surface of the earth to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005, of FAA Order 7400.9J dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Jackson,

OH, to accommodate aircraft executing instrument flight procedures into and out of James A. Rhodes Airport. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this, proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
