

ISO. Pursuant to the Appendix I Agreement, Ameren, FirstEnergy, and NIPSCO are seeking authorization, under Section 203 of the FPA, to transfer functional control of their transmission facilities to GridAmerica. In turn, GridAmerica will cede certain functions, set forth in Schedule 5 (Delineation Functions) to the Appendix I Agreement. The Delineation of Functions is fully consistent with the Commission's policy concerning functions that may be performed by an independent transmission company and those which must be performed by a non-profit regional transmission organization. The Appendix I Agreement also addresses rates and revenue allocation in accordance with recent Commission pronouncements. Specifically, in the Appendix I Agreement, the Midwest ISO agrees to support the recovery of lost revenues by Ameren, FirstEnergy, and NIPSCO due to the elimination of rate pancaking. The parties also expect that integration of GridAmerica into the Midwest ISO will not increase the Midwest ISO's Schedule 10 rate adder. In order to permit the parties to complete the development of the GridAmerica systems, and to integrate those systems into the Midwest ISO systems in time to permit the commencement of operations during the fourth quarter of 2002, the parties seek an expedited time schedule.
