BILLING CODE 3710–EZ–M

DEPARTMENT OF EDUCATION

The Secretary of Education's Commission on Opportunity in Athletics; Notice of Establishment

AGENCY: Office for Civil Rights, Education.

ACTION: Notice of establishment of The Secretary of Education's Commission on Opportunity in Athletics.

SUMMARY: The Secretary of Education announces his intention to establish the Secretary of Education's Commission on Opportunity in Athletics. The Commission will be governed by the Federal Advisory Committee Act (Pub. L. 92–463 as amended; 5 U.S.C.A. Appendix 2).

Purpose: The Secretary has determined that the 30th anniversary of the passage of Title IX of the Education Amendments of 1972 ("Title IX") is an appropriate time to review the application of current Federal standards for measuring equal opportunity for men and women and boys and girls to participate in athletics under Title IX. This landmark legislation prohibits recipients of Federal funds from discriminating on the basis of sex. Prior to the enactment of Title IX, schools and universities receiving federal funds were free to discriminate against women (and girls).

Over the last 30 years, there has been a dramatic increase in the number of women's (and girls') athletic teams at both the high school and college levels. From 1981 to 1999, the total number of college women's teams increased by 66%. Despite these gains, many college administrators claim that the Department has failed to provide clear

guidance on how colleges can comply with Title IX. The Secretary believes that it would be in the public interest to establish this Commission for the purpose of collecting information, analyzing issues, and obtaining broad public input directed at improving the application of current Federal standards for measuring equal opportunity for men and women and boys and girls to participate in athletics under Title IX.

The Commission will produce a report, not later than January 31, 2003, to the Secretary outlining its findings and any recommendations as to whether the Title IX standards should be revised, and if so, how the standards should be revised to improve the effectiveness of Title IX and to maintain and build upon the extraordinary progress that has resulted from its passage 30 years ago.

The Commission will consist of not more than 15 members appointed by the Secretary from the public and private sectors, as well as up to three ex officio members from the Department of Education. The members shall include representatives of college, university, and school district officials, such as athletic directors, coaches, and other faculty, and representatives of intercollegiate and secondary school athletics; and may include researchers, state and local officials, and other persons with special expertise in intercollegiate and secondary school athletics or issues of equal educational opportunity. The membership of the Commission will be fairly balanced to reflect representation of a wide range of interests and perspectives relating to men's and women's (and boys' and girls') athletics. Members shall be appointed for the life of the Commission and the Secretary shall select one or more chairpersons from among the members of the Commission.

For Additional Information: Contact Deborah Price, U.S. Department of Education, Washington, DC 20202. Telephone: (202) 708–9132.

Dated: July 5, 2002.

Rod Paige,

Secretary of Education.

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Notice of Availability of Solicitation

AGENCY: Albuquerque Operations Office, Department of Energy.

ACTION: Notice of availability of solicitation—Research and Development for Truck Essential Power Systems for Increased Powertrain Fuel Efficiency

and Overall Systems Efficiency Improvements.

SUMMARY: The U.S. Department of Energy (DOE) Office of Energy Efficiency and Renewable Energy, Office of Heavy Vehicle Technologies (OHVT), is seeking applications for cost-shared research and development for truck Essential Power Systems (EPS). Trucks include Class 2b through Class 8. The Essential Power System is a cross-cutting technology area (technologies and systems) that seeks to provide more efficient, practical, and cost effective management of electrical, mechanical, and thermal power on trucks. The EPS provides a possible technology pathway for future truck electrification.

DATES: Applications are to be received no later than 3 p.m. local prevailing time on August 26, 2002. Any application received after the due date will not be evaluated.

FOR FURTHER INFORMATION CONTACT: Evan M. Dunne, Contract Specialist, DOE/AL, at (505) 845–4798 or by e-mail at edunne@doeal.gov.

SUPPLEMENTARY INFORMATION: The solicitation will be available on the internet on or about July 12, 2002 at the following web site: <http://doe-iips.pr.doe.gov/>. Applications must be prepared and submitted in accordance with the instructions and forms contained in the solicitation. Teaming arrangements are strongly encouraged, especially among truck original equipment manufacturers (OEM's) and manufacturers of powertrain/engine and truck systems, to take advantage of the best complementary technologies available from the different companies/organizations. Participation of universities, small businesses, state and local governments, Indian tribes, and DOE Laboratories is also encouraged. It is desired by DOE that the primary applicant be an industrial partner. This promotes timely technology transfer to the private sector and enhances U.S. industrial competitiveness.

Issued in Albuquerque, New Mexico.

William L. McCullough,

Contracting Officer, Complex Support Branch, Contracts and Procurement Division.
