Motor Vehicle Emissions Budgets in Progress, Attainment, and Maintenance State Implementation Plans for Ozone, Carbon Monoxide, and Nitrogen Dioxide; California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: At the request of the State of California, EPA is proposing to limit the duration of our approvals of motor vehicle emissions budgets ("budgets") in certain existing California state implementation plans (SIPs) that provide for progress, attainment, and maintenance of the 1-hour ozone, 8-hour carbon monoxide (CO), and annual nitrogen dioxide (NO₂) national ambient air quality standards (NAAQS). Specifically, we propose to limit our approvals of the existing budgets to last only until the effective date of EPA's adequacy finding for new budgets that replace these existing approved budgets (*i.e.*, budgets for the same pollutant, Clean Air Act requirement and year). The State of California will submit new budgets as part of comprehensive revisions to certain approved progress, attainment, and maintenance plans that reflect updated information and a new version of California's motor vehicle emission factor model. On the effective date of EPA's adequacy finding for a new budget our approval of the existing budget would terminate and thus the new adequate budget would apply instead of the existing budget for transportation conformity purposes.

DATES: Written comments on this proposal must be received by August 15, 2002.

ADDRESSES: Please mail comments to: Dave Jesson (AIR-2), EPA Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901. The rulemaking docket for this notice is available for public inspection during normal business hours at EPA's Region IX office. A reasonable fee may be charged for copying parts of the docket.

Copies of the SIP materials are also available for inspection at the following location: California Air Resources Board, 1001 I Street, Sacramento, California, 95812.
