

regulatory requirements ordinarily applicable to natural gas companies under the NGA and the NGPA. It is asserted that Applicants' operations are almost entirely in intrastate commerce with the exception of small portions where they cross the Massachusetts-New Hampshire border. It is stated that Colonial's services and rates are regulated by the Massachusetts Department of Telecommunications and Energy and that EnergyNorth's services and rates are regulated by the New Hampshire Public Utilities Commission.

Any questions regarding this amendment should be directed to Thomas O'Neill at (617) 723-5512, or Kenneth T. Maloney at (202) 223-8890.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before July 31, 2002, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

National Fuel Gas Supply Corporation; Notice of Time Extension for Comment Period

July 11, 2002.

On July 1, 2002, the Federal Energy Regulatory Commission issued a *Notice of Intent To Prepare An Environmental Assessment for the Proposed National Fuel Replacement /Abandonment Project and Request For Comment on Environmental Issues* (NOI). The NOI was sent to all landowners on the project that was supplied by National Fuel Gas Supply Corporation (National Fuel). The NOI requested comments by July 31, 2001. However, on July 10, 2002, National Fuel filed a revised list of 83 additional landowners that were not included in our original NOI mail list. Therefore, we are sending copies of the NOI to the additional 83 landowners and extending the comment period for the NOI to August 12, 2002.
