### Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* U.S. Census Bureau.

*Title:* Current Population Survey, October 2002 School Enrollment Supplement.

*Form Number(s):* None.

*Agency Approval Number:* 0607-0464.

*Type of Request:* Revision of a currently approved collection.

*Burden:* 4,275 hours.

*Number of Respondents:* 57,000.

*Avg Hours Per Response:* 4 minutes and 30 seconds.

*Needs and Uses:* The Census Bureau requests OMB clearance for the

supplemental inquiry concerning school enrollment to be conducted in conjunction with October 2002 Current Population Survey (CPS) interviewing. Selected items which monitored changes in the types of vocational education have been removed since the supplement was last conducted in 2001 and new items have been added to investigate the fields of study for post-secondary degrees and the use of public libraries.

This data series has existed for 40 years and provides basic information on enrollment status of various segments of the population necessary as background for policy formation and implementation. The CPS October supplement is the only annual source of data on public/private elementary and secondary school enrollment and characteristics of private school students and their families, which are used for tracking historical trends and for policy planning and support. It is the only source of national data on the age distribution and family characteristics of college students and the only source of demographic data on preprimary school enrollment. As part of the federal government's efforts to collect data and provide timely information to local governments for policymaking decisions, this survey provides national trends in enrollment and progress in school.

*Affected Public:* Individuals or households.

*Frequency:* Annually.

*Respondent's Obligation:* Voluntary.

*Legal Authority:* Title 13 U.S.C., section 182 and Title 29 U.S.C., sections 1-9.

*OMB Desk Officer:* Susan Schechter, (202) 395-5103.

*Number of Respondents:* 5,995.

*Avg Hours Per Response:* 1.7 hours.

*Needs and Uses:* The Census Bureau conducts a series of monthly, quarterly, and annual surveys as part of the Current Industrial Reports (CIR) program. The CIR program focuses primarily on the quantity and value of shipments of particular products and occasionally with data on production and inventories; unfilled orders, receipts, stocks and consumption; and comparative data on domestic production, exports, and imports of the products they cover. Primary users of these data are Government agencies, business firms, trade associations, and private research and consulting organizations. The Federal Reserve Board uses CIR data in its monthly index of industrial production as well as its annual revision to the index. The Bureau of Economic Analysis (BEA) and the Bureau of Labor Statistics (BLS) use the CIR data in the estimate of components of gross domestic product (GDP) and the estimate of output for productivity analysis, respectively. Many Government agencies, such as the International Trade Commission, Department of Agriculture, Food and Drug Administration, Department of Energy, Federal Aviation Administration, BEA, and International Trade Administration, use the data for industrial analysis, projections, and monitoring import penetration. Private business firms and organizations use the data for trend projections, market analysis, product planning, and other economic and business-oriented analysis.

Due to the large number of surveys in the CIR program, for clearance purposes,
