

**ACTION:** Notice of Public Meeting

**SUMMARY:** The National Telecommunications and Information Administration (NTIA) will host a morning roundtable to address issues relating to the convergence of communications technologies, including the Telephone Number Mapping (ENUM) Protocol that facilitates convergence between the Internet and the public-switched telephone network. The roundtable will address how such convergence technologies function, alternatives to ENUM in the competitive marketplace, and policy issues including privacy and security that may arise with use of such convergence technologies.

**DATES:** The roundtable will be held from 1 p.m. to 5 p.m. on Wednesday, August 14, 2002.

**ADDRESSES:** The roundtable will be held at the U.S. Department of Commerce, 1401 Constitution Avenue, N.W., Washington, D.C., in Room 4830. (Entrance to the Department of Commerce is on 14th Street between Constitution and Pennsylvania Avenues.) The roundtable will be open to the public. To facilitate entry into the Department of Commerce, please have a photo identification and/or a U.S. Government building pass, if applicable.

**FOR FURTHER INFORMATION CONTACT:** Wendy Lader, Office of Policy Analysis and Development, NTIA, telephone (202) 482-1150, or electronic mail: [wlader@ntia.doc.gov](mailto:wlader@ntia.doc.gov). Media inquiries should be directed to the Office of Public Affairs, NTIA, at (202) 482-7002.

**SUPPLEMENTARY INFORMATION:** Traditionally, different communications networks and services have required separate addresses or numbers, such as an e-mail address, a telephone number, a fax number, or a cell phone number. Convergence technologies, such as ENUM, Voice-over-IP, and Session Initiation Protocol (SIP), now facilitate or promise to facilitate voice and other communications across these various architectures. ENUM, for example, is intended to map a telephone number from the public-switched telephone network (PSTN) to the Domain Name System (DNS) on the Internet. This mapping system may make it possible to reach a user via e-mail, fax, or phone using the standard telephone number (e.164 number) as the universal communications identifier.

NTIA's morning roundtable will address issues regarding such convergence technologies. As the principal adviser to the President on telecommunications and information policies, NTIA is vested with "[t]he

authority to conduct studies and make recommendations concerning the impact of the convergence of computer and communications technology" 47 U.S.C. § 902(M). The roundtable will explore the range of existing or developing convergence technologies, how they may be used, and their implications for consumer data privacy and security. This dialogue with leading U.S. experts in the field will help the U.S. government, among other things, prepare for discussions in international fora. Issues relating specifically to ENUM are currently being addressed in other venues, including the International Telecommunication Union, the Internet Engineering Task Force, and the ENUM Forum.

To solicit views from selected roundtable participants, the morning roundtable will be divided into two parts. The tentative agenda is as follows:

1 pm to 2:30 pm—Convergence Technologies: Their Viability and Utility in a Competitive Marketplace  
2:45 pm to 4:15 pm—Privacy, Security, Authentication, and other Policy Issues Relating to Convergence Technologies  
4:15 pm to 5 pm—Audience Question and Answer Session

The first session will address such questions as: (1) how the various convergence technologies function, including results from existing testbeds; (2) possible applications of convergence technologies; (3) how ENUM or similar systems would be introduced and implemented in the U.S., including how such systems could open to competition; and (4) whether and how convergence technologies and systems can co-exist.

The second session will address policy issues, particularly in the areas of privacy, security, and authentication, including: (1) what privacy measures might be necessary to protect individual data collected through the use of convergence technologies; (2) whether privacy protections are better left to the competitive marketplace or should be standardized; (3) what security precautions might be necessary to protect user data; and (4) what authentication and authorization requirements might be necessary to ensure the identity of the user.

A final, updated copy of the agenda will be available on NTIA's webpage at <http://www.ntia.doc.gov> before the roundtable.

**PUBLIC PARTICIPATION:** This meeting will be open to the public. Seating for public attendees is limited and is available on a first-come, first-served basis. The roundtable will be physically accessible to people with

disabilities. Any member of the public wishing to attend and requiring special services, such as sign language interpretation or other ancillary aids, should contact Wendy Lader at least three (3) days prior to the meeting via the contact information provided above.

## COMMODITY FUTURES TRADING COMMISSION

### Agency Information Collection Activities Under OMB Review

**AGENCY:** Commodity Futures Trading Commission.

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected costs and burden; it includes the actual data collection instruments [if any].

**DATES:** Comments must be submitted on or before August 16, 2002.

**FOR FURTHER INFORMATION OR A COPY CONTACT:** Lawrence B. Patent, Division of Trading and Markets, U.S. Commodity Futures Trading Commission, 1155 21st Street, NW., Washington, DC 20581, (202) 418-5439; FAX: (202) 418-5536; email: [lpatent@cftc.gov](mailto:lpatent@cftc.gov) and refer to OMB Control No. 3038-0021.

#### SUPPLEMENTARY INFORMATION:

*Title:* Regulation of Domestic Exchange-Traded Options (OMB Control No. 3038-0007). This is a request for extension of a currently approved information collection.

*Abstract:* Regulation of Domestic Exchange-Traded Options, OMB Control No. 3038-0007—Extension

The rules require futures commission merchants and introducing brokers (1) to provide their customers with standard risk disclosure statements concerning the risk of trading commodity interests; and (2) to retain all promotional material and the source of authority for information contained therein. The purpose of these rules is to ensure that customers are advised of the risks of trading commodity interests and to avoid fraud and misrepresentation.

These rules are promulgated pursuant to the Commission's rulemaking authority contained in Sections 4a(a), 4i, and 8a(5) of the Act, 7 U.S.C. 6a(1), 6i, and 12a(5).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the CFTC's regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981). The Federal Register notice with a 60-day comment period soliciting comments on this collection of information was published on June 27, 2002 (67 FR 43285).

*Burden statement:* The respondent burden for this collection is estimated to average .39 hours per response.

*Respondents/Affected Entities:* 415.

*Estimated number of responses:* 20,380.

*Estimated total annual burden on respondents:* 7,985 hours.

*Frequency of collection:* On occasion.

Send comments regarding the burden estimated or any other aspect of the information collection, including

suggestions for reducing the burden, to the addresses listed below. Please refer to OMB Control No. 3038-0007 in any correspondence.
