SUPPLEMENTARY INFORMATION:

I. Background

Individuals filing for compensation benefits with the Office of Workers' Compensation Programs (OWCP) may be represented by an attorney or other representative. The representative is entitled to request a fee for services under the Federal Employees' Compensation Act (FECA) and under the Longshore and Harbor Workers' Compensation Act (LSHWC). The fee must be approved by the OWCP before any demand for payment can be made by the representative. This information collection request sets forth the criteria for the information which must be presented by the respondent in order to have the fee approved by the OWCP. The information collection does not have a particular form or format; the respondent may present the information in any format which is convenient and which meets all the required information criteria. The information collection is currently approved by the Office of Management and Budget (OMB) for use through December 2002.

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks an extension of approval to collect this information in order to carry out its responsibility to approve representative fees under the two Acts. OWCP has reestimated the burden hours per response for FECA representatives only, from 90 minutes to 60 minutes. There is no change in the requirements or method of collection since the last clearance.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed

and continuing information-collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and cost) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information-collection burden is correct.

The Rigging Equipment in Construction Standard (i.e., "the Standard") specifies the seven paperwork requirements. The following section describes who uses the information collected under each requirement, as well as how they use it.

• *Alloy Steel Chains, Paragraph (b)*

Paragraph (b)(1) requires that alloy steel chains have permanently affixed durable identification tags stating size, grade, rated capacity and sling manufacturer. Paragraph (b)(6)(i) requires the employer to make a thorough periodic inspection of alloy steel chain slings in use on a regular basis, but at least once a year. Paragraph (b)(6)(ii) requires the employer to make and maintain a record of the most recent month in which each alloy steel chain was inspected and make the record available for examination.

• *End Attachments, Paragraph (c)*

Paragraph (c)(15)(ii) requires that all welded end attachments of wire rope slings be proof tested by the manufacturer at twice their rated capacity prior to initial use, and that the employer retain a certificate of the proof test and make it available for examination.

• *Synthetic Webbing (Nylon, Polyester, and Polypropylene), Paragraph (e)*

Paragraphs (e)(1)(i), (ii), and (iii) requires that synthetic web slings be marked or coded to show the manufacturer's trademark, rated capacity for the type of hitch and type of synthetic web material.

• *Shackles and Hooks, Paragraph (f)*

Paragraph (f)(2) requires that all hooks for which no applicable manufacturer's recommendations are available be tested to twice the intended safe working load before they are put into use. The employer shall maintain a record of the dates and results of the tests.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues.

- Whether the proposed information-collection requirements are necessary for the proper performance of the

Agency's functions, including whether the information is useful;

- The accuracy of OSHA's estimate of the burden (time and cost) of the information-collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information-collection and -transmission techniques.

III. Proposed Actions

OSHA proposes to extend OMB's previous approval of the recordkeeping (paperwork) requirements specified in these paragraphs of the Rigging Equipment Standard (29 CFR 1926.251). The Agency will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of this information-collection requirement.
