**National Advisory Council for
Environmental Policy and Technology;
Notice of Charter Renewal**

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice of charter renewal.

The Charter for the Environmental Protection Agency's National Advisory Council for Environmental Policy and Technology (NACEPT) will be renewed for an additional two-year period, as a necessary committee which is in the public interest, in accordance with the provisions of the Federal Advisory Committee Act (FACA), 5 U.S.C. App 9(c). The purpose of NACEPT is to provide advice and recommendations to the Administrator of EPA on issues associated with environmental management, technology and policy. It is determined that NACEPT is in the public interest in connection with the performance of duties imposed on the Agency by law.

Inquiries may be directed to Mark Joyce, U.S. EPA, (mail code 1601-A), 1200 Pennsylvania Avenue, NW., Washington, DC 20460, telephone (202) 564-9802, or joyce.mark@epa.gov.

Dated: July 9, 2002.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 12, 2002 (67 FR 17992).

Draft EISs

ERP No. D-AFS-J65361-MT Rating EC2, Black Ant Salvage Project, Salvage of 739 Acres of Dead Merchantable Trees from the Lost Fork Fire of 2001, Lewis and Clark National Forest, Meagher Basin County, MT.

Summary: EPA expressed environmental concerns due to impacts on soils stated to have high to very high erosion hazards in watersheds of 303(d) listed streams, when a winter logging alternative is available that reduces the impacts. EPA requested additional cumulative effects information and mitigation measures to reduce impacts of the management actions.

ERP No. D-AFS-J65362-MT Rating EC2, Pipestone Timber Sale and Restoration Project, Timber Harvest, Prescribed Fire Burning, Watershed Restoration and Associated Activities, Kootenai National Forest, Libby Ranger District, Lincoln Lincoln County, MT.

Summary: EPA expressed environmental concerns about adverse impacts to water quality and recommends consideration of logging methods that reduce ground disturbance in areas with sensitive soils and greater erosion and sediment production potential. EPA will evaluate potential water quality issues and consistency with TMDL development on private industrial timber land in the 303(d) listed Bobtail Creek drainage.

ERP No. D-FRC-E03009-00 Rating EC2, Patriot Project, Construction and Operation of Mainline Expansion and

Patriot Extension in order to Transport 510.00 dekatherms per day (dth/day) of Natural Gas, TN, VA and NC.

Summary: EPA has environmental concerns regarding potential impacts to wetlands, noise and air quality, as well as concerns over environmental justice and the need for an improved alternatives analysis. Specific concerns include sidecasting of spoil in wetlands, compressor station noise, crossing of numerous waterbodies including potential contaminated sediments, and proximity/safety of numerous homes within 25-50 ft of the proposed pipeline route.

ERP No. D-FRC-L05225-OR Rating EC2, North Umpqua Hydroelectric Project (FERC Project 1927), New License Issuance for the existing 185.5-megawatt (MW) Facility, North Umpqua River, Douglas County, OR.

Summary: EPA expressed environmental concerns with the proposed project in that a number of plans, analyses and surveys needed to define project baseline conditions, expected environmental effects and needed mitigation measures have not been completed. EPA recommends that this work be completed and incorporated in the EIS. EPA also recommends that a monitoring and evaluation plan be developed and included in the EIS along with evidence that required government-to-government consultations with affected Tribal governments have been undertaken and completed.

ERP No. D-FRC-L05226-ID Rating EO2, C.J. Strike Hydroelectric Project (FERC NO. 2055), New License Issuance, Snake and Bruneau Rivers, Owyhee and Elmore Counties, ID.

Summary: EPA expressed environmental objections to three of the alternatives evaluated in the EIS as they would not result in any appreciable improvement to instream or riparian environmental conditions. EPA expressed concerns with the Run-of-River alternative due to the lack of a strategy for complying with applicable water quality standards. EPA recommended that the EIS include project impacts and mitigation, the white sturgeon conservation strategy, government-to-government consultation with tribes, and issues identified during scoping.

ERP No. D-TVA-E65059-00 Rating EC1, Pickwick Reservoir Land Management Plan (Plan), Proposal to use the Plan to Guide Land-Use Approvals, Private Water Use Facility Permitting and Resource Management Decisions, Colbert and Lauderdale Counties, AL and Tishomingo County, MS and Hardin County, TN,.
