

fiscal year, you must provide a summary report to GSA of transactions conducted under the exchange/sale authority under part 102–39 of this chapter (see § 102–39.75).

§ 102–38.335 Is there any additional personal property sales information that we must submit to GSA?

Yes, you must report to GSA's Asset Disposition and

Management System (ADMS), once that capability is established, any sales information that GSA deems necessary.

Subpart G—Sales to State and Local Governments

§ 102–38.340 How may we sell personal property to State and local governments?

You may sell Government personal property to State and local governments through:

- (a) Competitive sale to the public;
- (b) Negotiated sale, through the appropriate State Agency for Surplus Property (SASP); or
- (c) Negotiated sale at fixed price (fixed price sale), through the appropriate SASP. (This method of sale can be used prior to a competitive sale to the public, if desired.)

§ 102–38.345 Do we have to withdraw personal property advertised for public sale if a State Agency for Surplus Property (SASP) wants to buy it?

No, you are not required to withdraw the item from public sale if the property has been advertised.

§ 102–38.350 Are State and local governments subject to the same payment requirements as public buyers?

Generally, yes, State and local governments have the same general payment requirements as other buyers, and payment must be made within 30 calendar days after purchase. However, you may waive the requirement for bid deposits and payments prior to removal of the property. If payment is not made within 30 days, you may charge simple interest at the rate established by the Secretary of the Treasury as provided in section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), from the date of written demand for payment.

§ 102–38.355 Do the regulations of this part apply to SASPs?

Yes, SASPs must follow the regulations in this part when conducting sales on behalf of GSA of Government personal property in their custody.

Place: Red Lion Hotel, Richland Hanford House, 802 George Washington Way, Richland, Washington. Telephone: 509/943–7611.

Time and Date: 7 p.m.–9 p.m., August 8, 2002.

Place: Espanola Senior Citizens Center, 735 Vietnam Veterans' Memorial Park Road, Espanola, New Mexico. Telephone: 505/753–9850.

Status: Open to the public, limited only by the space available. The meeting rooms accommodate approximately 150 people.

Matters To Be Discussed: In July 2001, the U.S. Department of Labor (DOL) began a new federal compensation program under the Energy Employees' Occupational Illness Compensation Program Act (the Act). The compensation program serves employees of the U.S. Department of Energy (DOE), its contractors, or subcontractors, and the employees of Atomic Weapons Employers designated by DOE, and survivors of these employees. The compensation program covers claims for current or former employees who developed chronic beryllium disease, beryllium sensitization, silicosis, or cancers associated with certain defined occupational exposures occurring in the performance of duty for U.S. nuclear weapons programs. Claims for cancer have to meet conditions related to one of two general requirements: either (1) the cancer of the employee has to be found to have been at least as likely as not caused by radiation doses incurred by the employee in the performance of duty for the nuclear weapons programs, or (2) the employee must be a member of the "Special Exposure Cohort" and have developed one of 22 specific cancer types, referred to as "specified cancers."

The Act defined the initial membership of the Special Exposure Cohort to include qualified employees who worked at any of three gaseous diffusion plants of the U.S. Department of Energy or a nuclear weapons test site in Amchitka, Alaska. However, the Act also allows classes of employees from facilities of DOE or of Atomic Weapons Employers to petition to be added to the Special Exposure Cohort. The outcome of the petitions will be decided by the Secretary, HHS. The procedures for making and deciding such petitions are described in a rule (a regulation) recently proposed by HHS for public comment (42 CFR part 83: "Procedures for Designating Classes of Employees as Members of the Special Exposure Cohort under the Energy Employees Occupational Illness Compensation Program Act of 2000;" Notice of Proposed Rulemaking; 67 FR 42962; June 25, 2002). The public comment period ends on August 26, 2002.

Purpose: The purpose of these public meetings is to present and explain the recent proposed rule by the HHS on how it would consider petitions to add classes of employees to the "Special Exposure Cohort" established under the Energy Employees' Occupational Illness Compensation Program Act. The meetings will allow members of the public to comment in person on this proposed regulation.

Matters To Be Discussed: HHS staff will give a summary presentation of the proposed rule. The public attending these meetings will have the opportunity to ask questions about the HHS rule and to comment on the rule. The public attending these meetings will also be encouraged to submit written comments to the regulatory record (docket). Official transcripts of the meetings, including all public comments on the proposed rule presented orally during the meetings, will be included in the public comment record (the 'docket') developed as part of the HHS rule making. HHS will consider comments received during the public comment period, which concludes on August 26, 2002, before issuing a final rule establishing procedures for adding classes of employees to the Special Exposure Cohort.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities for both CDC and ATSDR.

Dated: July 15, 2002.

John C. Burckhardt,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.
