

although the CMR capabilities would likely be restricted to minimal levels.

*Potential Issues for Analysis:* NNSA has tentatively identified the following issues for analysis in this EIS.

Additional issues may be identified as a result of the scoping process.

1. Potential human health impacts (both to members of the public and to workers) related to the proposed new facility and anticipated LANL nearby activities during normal operations and reasonably foreseeable accident conditions.

2. Potential impacts to air, water, soil, visual resources and viewsheds associated with constructing new buildings, relocating and continuing CMR operations.

3. Potential impacts to plants and animals, and to their habitats, including Federally-listed threatened or endangered species and their critical habitats, wetlands and floodplains, associated with constructing new buildings, relocating and continuing CMR operations.

4. Potential impacts from geologic site conditions and land uses associated with constructing new buildings, relocating and continuing CMR operations.

5. Potential impacts from irretrievable and irreversible consumption of natural resources and energy associated with constructing new buildings, relocating and continuing CMR operations.

6. Potential impacts to cultural resources, including historical and prehistorical resources and traditional cultural properties, from constructing new buildings, relocating and continuing CMR operations.

7. Potential impacts to infrastructure, transportation issues, waste management, and utilities associated with constructing new buildings, relocating and continuing CMR operations.

8. Potential impacts to socioeconomic conditions from constructing new buildings, relocating and continuing CMR operations.

9. Potential environmental justice impacts to minority and low-income populations as a result of constructing new buildings, relocating and continuing CMR operations.

10. Potential cumulative impacts from the Proposed Action and other past, present, and reasonably foreseeable actions at LANL.

NNSA anticipates that certain classified information will be consulted in the preparation of this CMRR EIS and used by decision-makers to decide where and how to relocate the CMR capabilities from the existing CMR Building. This EIS may contain a

classified appendix. To the extent allowable, the EIS will summarize and present this information in an unclassified manner.

*Related NEPA Reviews:* Following is a summary of recent NEPA documents that may be considered in the preparation of this EIS and from which this EIS may be tiered, and of future EISs that may be in preparation simultaneously with the CMRR EIS. The CMRR EIS will include relevant information from each of these documents.

- The Final Stockpile Stewardship and Management Programmatic Environmental Impact Statement (SSM PEIS) (DOE/EIS-0236). The SSM PEIS addressed the facilities and missions to support the stewardship and management of the U.S. nuclear stockpile. The Record of Decision (ROD) was issued in 1996 and identified stewardship and management mission support activities assigned to LANL, in particular, the reestablishment of DOE's plutonium pit production capability.

- The Final Los Alamos National Laboratory Site-Wide Environmental Impact Statement (SWEIS) (DOE/EIS-0238). The SWEIS analyzed four levels of operations alternatives for LANL to meet its existing and potential future program assignments: The No Action Alternative, the Expanded Operations Alternative, the Reduced Operations Alternative, and the Greener Alternative. The SWEIS also provided project specific analysis for two proposed projects: The Expansion of TA-54/Area G Low Level Waste Disposal Area; and Enhancement of Plutonium Pit Manufacturing. The SWEIS Record of Decision identified the Expanded Alternative with reduced pit manufacturing capabilities as the level of operations DOE would undertake at LANL over the next ten years.

- The Draft Environmental Impact Statement for the Proposed Relocation of Technical Area 18 Capabilities and Materials at Los Alamos National Laboratory (TA-18 EIS) (DOE/EIS-0319). The TA-18 EIS considers relocating the TA-18 criticality mission activities to another location at LANL; to the Nevada Test Site near Las Vegas, Nevada; to Sandia National Laboratory at Albuquerque, New Mexico; or to the Argonne National Laboratory—West near Idaho Falls, Idaho. If retained at LANL, the TA-18 activities could be housed in new buildings constructed next to the Plutonium Facility at TA-55; could remain in the current facilities without any upgrades; or could remain in upgraded facilities at TA-18.

- The NNSA is considering initiation of the preparation of an EIS on the

proposed Modern Pit Facility. As the analysis for this new facility progresses it will be incorporated, if applicable, into the CMRR EIS to the extent practicable.

*Public Scoping Process:* The scoping process is an opportunity for the public to assist the NNSA in determining the alternatives and issues for analysis. The purpose of the scoping meetings is to receive oral and written comments from the public. The meetings will use a format to facilitate dialogue between NNSA and the public and will be an opportunity for individuals to provide written or oral statements. NNSA welcomes specific comments or suggestions on the content of these alternatives, or on other alternatives that could be considered. The above list of issues to be considered in the EIS analysis is tentative and is intended to facilitate public comment on the scope of this EIS. It is not intended to be all-inclusive, nor does it imply any predetermination of potential impacts. The CMRR EIS will describe the potential environmental impacts of the alternatives, using available data where possible and obtaining additional data where necessary. Copies of written comments and transcripts of oral comments will be available at the following locations: Los Alamos Outreach Center, 1350 Central Avenue, Suite 101, Los Alamos, New Mexico, 87544; and the Zimmerman Library, University of New Mexico, Albuquerque, New Mexico 87131.

Issued in Washington, DC, this 15th day of July, 2002.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

**[Docket No. RP02-259-001]**

### Algonquin Gas Transmission Company; Notice of Compliance Filing

July 17, 2002.

Take notice that on July 10, 2002, Algonquin Gas Transmission Company (Algonquin) tendered for filing as part of its FERC Gas Tariff, Fourth Revised Volume No. 1, Sub Second Revised Sheet No. 641, to be effective on July 1, 2002.

Algonquin states that the purpose of this filing is to comply with the directives of the Commission's Letter

Order dated June 26, 2002, in Docket No. RP02-259 (June 26 Order).

Algonquin states that, on May 1, 2002, it filed revised tariff sheets in this docket to comply with Order No. 587-N. The June 26 Order conditionally accepted certain of the tariff sheets contained in Algonquin's May 1 tariff filing, effective July 1, 2002, subject to the condition that Algonquin file, within fifteen days of the June 26 Order, substitute revised tariff sheets to reflect the changes required by the June 26 Order. Algonquin is submitting this filing in compliance with the June 26 Order.

Algonquin states that copies of its filing have been mailed to all parties listed on the Service List compiled by the Secretary of the Commission in this docket.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before July 24, 2002. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

### Algonquin LNG, Inc.; Notice of Compliance Filing

July 17, 2002.

Take notice that on July 10, 2002, Algonquin LNG, Inc. (ALNG) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, Sub Fifth Revised Sheet No. 64A, to be effective on July 1, 2002.

ALNG states that the purpose of this filing is to comply with the directives of the Commission's Letter Order dated June 26, 2002, in Docket No. RP02-260 (June 26 Order).

ALNG states that, on May 1, 2002, it filed revised tariff sheets in this docket to comply with Order No. 587-N. The June 26 Order conditionally accepted the tariff sheets contained in ALNG's May 1 tariff filing, effective July 1, 2002, subject to the condition that ALNG file, within fifteen days of the June 26 Order, substitute revised tariff sheets to reflect the changes required by the June 26 Order. ALNG is submitting this filing in compliance with the June 26 Order.

ALNG states that copies of its filing have been mailed to all parties listed on the Service List compiled by the Secretary of the Commission in this docket.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with section 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before July 24, 2002. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. ## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

**[Docket No. RP02-252-001]**

### Columbia Gulf Transmission Company; Notice of Compliance Filing

July 17, 2002.

Take notice that on July 11, 2002, Columbia Gulf Transmission Company (Columbia Gulf) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following

revised tariff sheets to become effective July 1, 2002:

Substitute Third Revised Sheet No. 389

Substitute Fourth Revised Sheet No. 393

Substitute First Revised Sheet No. 395A

Columbia Gulf states that on May 1, 2002, it made a filing with the Commission to comply with Order No. 587-N (98 FERC 61,257 (2002)). The order amended the Commission's regulations to require pipelines to permit releasing shippers to recall released capacity and renominate such recalled capacity at each nomination opportunity. On June 26, 2002, the Commission approved the tariff sheets filed on May 1, 2002, but directed Columbia Gulf to make minor modifications. The tariff sheets in the instant filing reflect the changes mandated by the Commission.

Columbia Gulf states that copies of its filing have been served to Colombia Gulf's firm customers and affected state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before July 24, 2002. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings.
