Request****AGENCY:** Employment and Training  
Administration, Labor.**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of the collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning a proposed extension of a currently approved data collection: the Youth Employment Survey (YES). The

extension will allow for an analysis of changes in the youth employment and educational attainment rates in the Youth Opportunity areas. The baseline estimates have already been completed under the current OMB approval; the extension of this collection will allow for the completion of the follow-ups.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

**DATES:** Written comments must be submitted to the office listed in the addressee section below on or before September 27, 2002.

**SUPPLEMENTARY INFORMATION:****I. Background**

The Youth Opportunity Area (Kulick) Demonstration is an initiative designed to improve the labor market prospects of out-of-school youth in a small number of high poverty areas. Under this demonstration, eleven Opportunity Areas have been created to expand employment, education, and training opportunities for out-of-school youth ages 16-24, with priority given to high

school dropouts. Each Opportunity Area consists of an identified target area within a designated empowerment zone or enterprise community with a population between 10,000 and 20,000 persons and a poverty rate among the highest in the community. Grants were awarded starting in 1996, 1997, and 1999. The Opportunity Areas are in the cities of Chicago, Los Angeles, Houston, New York, Boston, Detroit, Denver, Baltimore, Oakland, San Diego, and in Kentucky's Lake County Area Development District. They have been designated incrementally over a three year period.

In February 2000, ETA awarded 36 Youth Opportunity (YO) Grants as Kulick grants' successors to cities, rural areas, and Native American reservations across the nation to attack the problem of persistent unemployment and underemployment among youth in high-poverty urban and rural areas. The YO grants are intended to be the foundation for community-wide efforts to mobilize resources in helping these youth to enter the economic mainstream. The YO grants are a sustained, five-year effort in each community that, in addition to increasing the labor market and educational success of area youth, also are to provide other developmental benefits for program participants. It is expected that communities will supplement the YO grants with other programs funded at the Federal, state, and local levels that are designed to
