## ENVIRONMENTAL PROTECTION AGENCY

[FRL-7252-6]

### EPA Science Advisory Board, Contaminated Sediments Science Plan Panel; Request for Nominations

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice; request for nominations to serve on the Contaminated Sediments Science Plan Panel of the U. S. Environmental Protection Agency's Science Advisory Board.

**SUMMARY:** The U.S. Environmental Protection Agency's (Agency, EPA) Science Advisory Board (SAB) is announcing the formation of a Contaminated Sediments Science Plan Panel and its solicitation of nominations of qualified individuals to serve on this Panel.

The SAB provides independent scientific and technical advice to the EPA Administrator on Agency positions; in this case, the SAB will advise on a Contaminated Sediments Science Plan that the Agency will use to develop and coordinate Agency-wide science activities in the area of contaminated sediments. Those selected to serve on the SAB's Contaminated Sediments Science Plan Panel will review the Science Plan in the Autumn of 2002.

The approved policy under which the EPA Science Advisory Board selects review panels is described in a recent SAB Commentary [*EPA Science Advisory Board (SAB) Panel Formation Process: Immediate Steps to Improve Policies and Procedures—An SAB Commentary* (EPA-SAB-EC-COM-002-003), which can be found on the SAB website (<http://www.epa.gov/sab>)

at <http://www.epa.gov/sab/ecm02003.pdf>.]

Any interested person or organization may nominate qualified individuals for membership on the Panel. Nominations (preferably in electronic format) must include the individual's name, occupation, position, qualifications to address the issue, and contact information (*i.e.*, telephone number, fax number, mailing address, email, and/or Website). To be considered, all nominations must include a current bio, CV or resume (preferably electronic in MSWord or WordPerfect) providing information on the nominee's background, experience, and qualifications for this Panel.

The SAB staff asks that nominations be provided in the following way:

1. Send the nomination by e-mail to: [martin.lawrence@epa.gov](mailto:martin.lawrence@epa.gov).
2. Use one email per person being nominated.
3. Please use "contaminated sediments" in the subject field, followed by the last name of the candidate you are nominating. (For example, "Contaminated Sediments: Smith).
4. Attach supporting information in MS Word or WordPerfect files ending in ".doc" or ".wpd".

5. In a separate file from the bio, CV or resume, please provide the following information in the order shown:

*For the Nominating Individual:*

*Nominator's Assessment of Expertise:*  
The following areas of expertise will be useful in this review. Please indicate the areas of expertise the candidate could contribute:

- Human health effects assessment (particularly in persistent, bioaccumulative & toxic materials, *e.g.* PCBs)
- Ecological effects assessment (particularly in persistent, bioaccumulative and toxic materials, *e.g.* PCBs)

- Physico-chemical nature of sediments
- Soil contamination remediation technologies
- Baseline and post remediation site monitoring
- Risk communication to the public
- Information data management systems
- Ecological fate and transport modeling of contaminants in surface waters and sediments
- Exposure assessment
- Cost-benefit valuation

*Background:* The Contaminated Sediments Science Plan is a mechanism for the U.S. Environmental Protection Agency (EPA) to develop and coordinate Agency-wide science activities in the contaminated sediments area. Along with the EPA's contaminated sediments science activities database, this plan provides an analysis of the current Agency science activities in this area, identifies and evaluates the science gaps, and provides a strategy for filling these gaps.

The Contaminated Sediments Science Plan has three goals to promote the vision of providing a strong scientific basis for addressing contaminated sediments: (1) To develop and disseminate the tools and science necessary to address the management of contaminated sediments; (2) To enhance the level of coordination and communication of science activities dealing with contaminated sediments across the EPA's Program and Regional Offices and the Office of Research and Development; and (3) To develop an effective, cost-efficient strategy to promote these scientific activities and research.

To allow interested parties to view the Draft Contaminated Sediments Science Plan, which is receiving public comment, the July 22, 2002 **Federal Register** (Volume 67, Number 140, Notices, Pages 47798-47800) announced the following Internet Web addresses for viewing the Plan: <http://www.epa.gov/superfund/action/guidance/cssp.pdf> and <http://www.epa.gov/superfund/action/guidance/cssp-appendix.pdf>.

*Charge to the Panel:* Details of the Charge may change as a result of discussions between the Agency and the Panel. Updates will be posted on the SAB Website: ([www.epa.gov/sab](http://www.epa.gov/sab)).
