

no crop was to be harvested in return for sugar from CCC's inventory. Accordingly, it would not be proper to consider such acres to have suffered a loss of the crop for purposes due to the application of this herbicide. Subject to the availability of funds, Oust benefits under this notice for losses to crops shall be made in an amount determined by multiplying the determined eligible loss of production in excess of 25 percent of the expected production for the field by the applicable payment rate.

Production shall include all harvested production, unharvested production and assigned production for the field. The county committee shall assign production when the county committee determines: (1) An acceptable appraisal or record of harvested production does not exist; (2) acreage was destroyed and no appraisal exists; (3) yields are diminished or losses are increased due to an ineligible cause of loss.

The county committee shall establish production factors for ineligible causes of loss. Production factors will apply when assigning production for ineligible causes of loss.

Producers are responsible for providing verifiable or reliable production records available for the crop and field and summarizing all the production evidence. If the eligible crop was sold or otherwise disposed of through commercial channels, production records include: commercial receipts; settlement sheets; warehouse ledger sheets; or load summaries; appraisal information from a loss adjuster acceptable to CCC. If the eligible crop was farm-stored, sold, fed to livestock or disposed of by means other than commercial channels, production records for these purposes include: truck scale tickets; appraisal information from a loss adjuster acceptable to CCC; contemporaneous diaries; or other documentary evidence, such as contemporaneous measurements.

Producers must provide all records for any production of a crop that is grown with an arrangement, or contract for guaranteed payment. The failure to report the existence of any guaranteed contract or similar arrangement or agreement shall be considered as providing false information to CCC and will render producers ineligible for Oust benefits, and may lead to other civil or criminal sanctions.

To receive Oust benefits, the county committee must determine that because of the herbicide Oust, the producer, with respect to the 2001 crop year, sustained a loss in production of a crop.

To determine if eligible acreage was damaged by Oust, the producer must

supply one of the following types of documentation: (1) Field inspection form compiled by a licensed crop consultant; (2) documentation from an independent crop consultant that indicates Oust damage; (3) positive soil test results that show the presence of Oust in the sample; or (4) documentation from a University of Idaho Specialist that the acreage showed Oust damage.

To apply for benefits, producers must submit: (1) Form CCC-559, and include supporting documentation described in this notice; (2) Form AD-1026, Highly Erodible Land and Wetland Conservation Compliance; and (3) FSA-578, Report of Acreage.

Unless extended by CCC, the final date for accepting applications for the Oust Program shall be no less than 15 calendar days after the date this notice is published in the **Federal Register**. It has been determined that the notice and comment provisions of section 553 of title 5, United States Code, the Statement of Policy of the Secretary of Agriculture effective July 24, 1971 (36 FR 13804), relating to notices of proposed rulemaking and public participation in rulemaking, and chapters 35 of title 44, United States Code (the "Paperwork Reduction Act") are not applicable to the Oust Program. Also delay for Congressional review under 5 U.S.C. 808 *et seq.*, to the extent if any, that it would otherwise apply, would be contrary to the public interest and contrary to the provisions of section 757 of Public Law 107-76 which specifies that in carrying out that section the Secretary shall use the authority of 5 U.S.C. 808 exempting agency actions from such review. Applications may be obtained and filed in the county FSA office where the producer's farm is located for administrative purposes. All late and incomplete applications may be rejected.

The Oust Program shall be under the supervision of the Farm Service Agency, Deputy Administrator for Farm Programs, who shall have the authority to modify terms and conditions of the Oust Program in order to achieve the purposes of the Oust Program. Additional conditions may be added by the program application as needed. No claims will be paid except upon the making of a proper application during the sign-up period for this program. The final terms and conditions shall be those set out in the program application, CCC-559, which all participants must sign. A copy of this form is available at any FSA office.

For additional information, affected producers should contact the Farm

Service Agency Service Center in the county in which their farm is located for administrative purposes. Eligibility determinations will be made upon receipt of all of the necessary data.

Signed at Washington, DC, on July 25, 2002.

**James R. Little,**

*Executive Vice President, Commodity Credit Corporation.*
