DEPARTMENT OF THE TREASURY

17 CFR Part 420

RIN 1505-AA88

Government Securities Act Regulations: Large Position Rules

AGENCY: Office of the Assistant Secretary for Financial Markets, Treasury.

ACTION: Proposed rule.

SUMMARY: The Department of the Treasury ("Treasury," "We," or "Us") is publishing for comment proposed amendments to the reporting requirements pertaining to very large positions in certain Treasury securities. The regulations are issued under the Government Securities Act Amendments of 1993 ("GSAA"). The purpose of the rules is to provide Treasury with information to better understand the causes of market shortages in certain Treasury securities. We are proposing changes to improve the information available to Treasury. Specifically, we are proposing to modify the report to require separate reporting of certain components of the "net trading position" and the "gross financing position." We are also proposing to revise the current

"memorandum" item to require that the par amount of securities delivered through repurchase agreements be separated by maturity classification. In addition, we are proposing to add a new memorandum item to the large position report that would report the gross par amount of "fails to deliver." Finally, we are proposing to modify the definition of "gross financing position" to eliminate the optional exclusion in the calculation of the amount of securities received through certain financing transactions.
