[Program Announcement 02163]

Support for Civil Society of Organizations Responding to HIV/AIDS in Zimbabwe; Notice of Availability of Funds; Amendment II

A notice announcing the availability of Fiscal Year 2002 funds for cooperative agreements for Support for Civil Society of Organizations Responding to HIV/AIDS in Zimbabwe was published in the **Federal Register** on May 23, 2002, Volume 67, Number 100, Pages 36194–36196. The notice is amended as follows: On page 36194, column 3, section C, Availability of Funds, should be amended to include, "Funding priorities for this program have been established by the CDC-Zimbabwe AIDS Program Office, to allow for geographic diversity of grantees as well as diversity in the functions and roles of grantees. These priorities include the following categories:

"(1) *Behavior Change Training:* One or two organizations to lead efforts involving training, workshops, and seminars on behavior change in young persons to prevent HIV/AIDS, incorporating the CDC MARCH strategy and/or other science-based strategies;

"(2) *Ecumenical MARCH Reinforcement Partner:* One multid denominational, faith-based organization that can serve as a lead institution for development of behavior change reinforcement materials and strategies to reach church-based youth groups.

"(3) *Denominations:* Two or three major denominations or faith organizations with commitment and capacity to implement a comprehensive HIV prevention plan for young persons in their denomination or organization.

"(4) *Organization of HIV-positive persons:* One or two organizations that symbolize, represent, and advocate for HIV-positive persons in Zimbabwe.

"(5) *Trainers in HIV/AIDS Medical Care:* One nongovernmental organization that provides training for health care professionals taking care of persons with HIV/AIDS.

"(6) *Multisectoral, district level organizations:* At least one to two (or possibly more) organizations that function principally at the district level, working across multiple sectors, with the capacity to assist in mobilizing multiple sectors for involvement with

the CDC MARCH reinforcement strategy at the district level.

“Applications responsive to this program announcement will be funded in the categories listed above. CDC expects to fund at least one, but no more than the maximum number identified. Additional organizations may be funded based on evaluation criteria and the availability of funds.”

Dated: July 31, 2002.

Indian Health Service

Proposed Collection; Public Comment Request: Indian Health Service Medical Staff Credentials and Privileges Files

AGENCY: Indian Health Service.

ACTION: Request for Public Comment: 60-day Proposed Information Collection: Indian Health Service Medical Staff Credentials and Privileges Files.

SUMMARY: The Department of Health and Human Services, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Indian Health Service (IHS) is providing a 60-day advance opportunity for public comment on a proposed extension of current information collection activity to be submitted to the Office of Management and Budget for review.

Proposed Collection: Title: 09-17-0009, “Indian Health Service Medical Staff Credentials and Privileges Files”.

Type of Information Collection Request: Extension, without revision, of currently approved information collection, 09-17-0009, “Indian Health Service Medical Staff Credentials and Privileges Files.” *Form Number:* Instructions and information collection formats are contained in IHS Circular No. 93-2, “Credentials and Privileges Review Process for the Medical Staff.” *Need and Use of Information Collection:* The IHS operates health care facilities that provide health care services to American Indians and Alaska Natives.

To provide these services, the IHS employs (directly and under contract) several categories of health care providers including: physicians (M.D. and D.O.), dentists, psychologists, optometrists, podiatrists, audiologists; and in some states, physician assistants, certified registered nurse anesthetists, nurse practitioners, and certified nurse midwives. IHS policy specifically requires physicians and dentists to be members of the health care facility medical staff where they practice. Health care providers become medical staff members, depending on the local health care facility’s capabilities and medical staff bylaws. There are three types of IHS medical staff applicants: (1) Health care providers applying for direct employment with IHS; (2) contract health care providers who will not seek to become IHS employees; and (3) employed IHS health care providers who seek to transfer between IHS health care facilities. National health care standards developed by the Centers for Medicare and Medicaid Services, formerly the Health Care Financing Administration and by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) require health care facilities to review, evaluate and verify the credentials, training and experience of medical staff applicants prior to granting medical staff privileges. To meet these standards, IHS health care facilities require each medical staff applicant to provide information concerning their education, training, licensure, and work experience and any adverse disciplinary actions taken against them. This information is then verified with references supplied by the applicant and may include: former employers, educational institutions, licensure and certification boards, the American Medical Association, the Federation of State Medical Boards, the National Practitioner Data Bank, and the applicants themselves.

In addition to the initial granting of medical staff membership and clinical privileges, JCAHO standards require that a review of the medical staff be conducted not less than every two years. This review evaluates the current competence of the medical staff and verifies whether they are maintaining their licensure and the certification requirements of their specialty. The medical staff credentials and privileges records are maintained at the health care facility where the health care provider is a medical staff member. The establishment of these records at IHS health care facilities is not optional; such records must be established and
