

issued a Certification of Eligibility to Apply for NAFTA Transitional Adjustment Assistance on February 11, 2002, applicable to workers of Motorola, Inc., Personal Communications Sector, Wireless Messaging Division, Boynton Beach, Florida. The notice was published in the **Federal Register** on February 28, 2002 (67 FR 9328). The certification was amended on April 9, 2002 to include leased workers of Adecco Employment employed at Motorola, Inc., Personal Communication Sector, Wireless Messaging Division, Boynton Beach, Florida. The notice was published in the **Federal Register** on April 24, 2002 (67 FR 20173).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. Information provided by the State shows that a worker separation occurred involving an employee whose wages were paid by Motorola, Inc., Personal Communications Sector, Wireless Messaging Div., Boynton Beach, Florida, but worked in Buda, Texas. This employee was engaged in employment related to the production of electronic paging and cellular products at the Boynton Beach, Florida location of the subject firm.

Based on these findings, the Department is amending the certification to include an employee of Motorola, Inc., Personal Communications Sector, Wireless Messaging Division, Buda, Texas.

The intent of the Department's certification is to include all workers of Motorola, Inc., Personal Communications Sector, Wireless Messaging affected by employment declines and a shift in the production of electronic paging and cellular products to Mexico.

The amended notice applicable to NAFTA-05319 is hereby issued as follows:

All workers of Motorola, Inc., Personal Communications Sector, Wireless Messaging Division, Boynton Beach, Florida including leased workers of Adecco Employment, Boca Raton, Florida (NAFTA-5319), and including a worker of Motorola, Inc., Personal Communications Sector, Wireless Messaging Division, Buda, Texas (NAFTA-5319A), engaged in employment related to the production of electronic paging and cellular products at Motorola, Inc., Personal Communications Sector, Wireless Messaging Division, Boynton Beach, Florida who became totally or partially separated from employment on or after September 13, 2000, through February 11, 2004, are eligible to

apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed in Washington, DC this 25th day of July, 2002.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

Telair International Air Cargo Equipment, Rancho Domingez, California; Amended Certification Regarding Eligibility To Apply for NAFTA-Transitional Adjustment Assistance

In accordance with Section 250(A), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974 (19 U.S.C. 2273), the Department of Labor issued a Certification for NAFTA Transitional Adjustment Assistance on April 3, 2002, applicable to workers of Telair International, Rancho Domingez, California. The notice was published in the **Federal Register** on April 17, 2002 (67 FR 18924).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of air cargo containers and hardware. New information shows that Air Cargo Equipment purchased Telair International in May, 2001.

Information also shows that workers separated from employment at the subject firm had their wages reported under a separate unemployment insurance (UI) tax account for Air Cargo Equipment.

Accordingly, the Department is amending the certification to properly reflect this matter.

The intent of the Department's certification is to include all workers of Telair International, Rancho Domingez, California who were adversely affected by a shift of production of air cargo containers and hardware to Mexico.

The amended notice applicable to NAFTA-05503 is hereby issued as follows:

All workers of Telair International, Air Cargo Equipment, Rancho Domingez, California, who became totally or partially

separated from employment on or after October 25, 2000, through April 3, 2004, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, DC this 25th day of July, 2002.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

Investigations Regarding Certifications of Eligibility To Apply for NAFTA Transitional Adjustment Assistance

Petitions for transitional adjustment assistance under the North American Free Trade Agreement-Transitional Adjustment Assistance Implementation Act (Pub. L. 103-182), hereinafter called (NAFTA-TAA), have been filed with State Governors under Section 250(b)(1) of Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended, are identified in the Appendix to this Notice. Upon notice from a Governor that a NAFTA-TAA petition has been received, the Director of the Division of Trade Adjustment Assistance (DTAA), Employment and Training Administration (ETA), Department of Labor (DOL), announces the filing of the petition and takes action pursuant to paragraphs (c) and (e) of Section 250 of the Trade Act.

The purpose of the Governor's actions and the Labor Department's investigations are to determine whether the workers separated from employment on or after December 8, 1993 (date of enactment of Public Law 103-182) are eligible to apply for NAFTA-TAA under Subchapter D of the Trade Act because of increased imports from or the shift in production to Mexico or Canada.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing with the Director of DTAA at the U.S. Department of Labor (DOL) in Washington, DC provided such request is filed in writing with the Director of DTAA not later than August 19, 2002.

Also, interested persons are invited to submit written comments regarding the subject matter of the petitions to the

Director of DTAA at the address shown below not later than August 19, 2002.

Petitions filed with the Governors are available for inspection at the Office of the Director, DTAA, ETA, DOL, Room

C-5311, 200 Constitution Avenue, NW., Washington, DC 20210.

Signed at Washington, DC this 30th day of July 2002.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

DEPARTMENT OF LABOR**Mine Safety and Health Administration****Petitions for Modification**

The following party has filed a petition to modify the application of an existing safety standard under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Mountain Coal Company, LLC

[Docket No. M-2002-061-C]

Mountain Coal Company, LLC, 5174 Highway 133, P.O. Box 591, Somerset, Colorado 81434 has filed a petition to modify the application of 30 CFR 75.321(a)(2) (Air quality) to its West Elk Mine (I.D. No. 05-03672) located in Gunnison County, Colorado. The petitioner requests a modification of the standard to allow personnel to work in bleeder entries where the air quality contains a minimum of 18.0% oxygen. The petitioner states that the stipulations listed below, along with others listed in the petition, would be followed when its proposed alternative

method is implemented: (a) Work in bleeder entries would be limited to what is necessary to complete required weekly examinations and maintain the bleeder in travelable condition such as pumping water, repairing water pumping system, installing additional supplemental roof support, calibrating sensors, etc.; (b) Oxygen sensors would be installed to continuously monitor the oxygen content every 4000 feet in the bleeder entry where the oxygen content is less than 19.5%; and (c) Training would be provided to all personnel assigned to work in the bleeder entries in the hazards of oxygen deficiency and the stipulations of this petition. The petitioner states that the reduced oxygen content in the bleeder entry would not affect the purpose of the bleeder entry for methane control. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard, and that application of the existing standard would result in a diminution of safety to the miners.
