

Sea Grant Program. Local institutional policies may affect how a project budget should be submitted, and what may be included (*i.e.*, application of indirect costs, availability of fellowships, and other restrictions or cost-saving opportunities). Proposals generated from Sea Grant states must follow local guidelines, if any. In no case will proposals be funded at a level which exceeds the funding limitations as set in this announcement.

**5. Current and Pending Support:**

Applicants must provide information on all current and pending Federal support for ongoing projects and proposals, including subsequent funding in the case of continuing grants. The relationship between the proposed project and these other projects should be described, and the number of person-months per year to be devoted to the projects must be stated.

**6. Vitae** (2 pages maximum per investigator).

**7. Research Protocol (if appropriate):**

Research activities funded under this program must not accelerate the spread of nonindigenous species to non-infested watersheds. Therefore, investigators studying any nonindigenous species whose laboratories or research study sites are in currently uninfested areas must develop protocols for handling the particular nonindigenous species that will prevent its release into the environment. As part of the plan of action, the investigator must detail these protocols and explain how the proposed work will be accomplished while safeguarding the environment. The research protocol will be reviewed by an interagency committee created under the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4701 *et seq.*). Guidelines for developing suitable protocols are available through the internet Web site [http://www.ANST\\_askForce.gov/resprot.htm#](http://www.ANST_askForce.gov/resprot.htm#), or from Dorn Carlson (listed in **FOR FURTHER INFORMATION CONTACT**, above). Proposals lacking a suitable protocol will not be eligible for funding.

**8.** Letters of commitment and letter of support from any industry or other partner, if appropriate.

**VII. Other Requirements for Successful Applicants**

The Department of Commerce Pre-Award Notification of Requirements for Grants and Cooperative Agreements contained in the Federal Register Notice of October 1, 2001 (66 FR 49917) are applicable to this solicitation. However, please note that the Department will not implement the requirements of

Executive Order 13202 (66 FR 49921), pursuant to guidance issued by the Office of Management and Budget in light of a court opinion which found that the Executive Order was not legally authorized. *See Building and Construction Trades Department v. Allbauth*, 172 F. Supp. 2d 138 (D.D.C. 2001). This decision is currently on appeal. When the case has been finally resolved, the Department will provide further information on implementation of Executive Order 13202. The Federal Register notice also lists the forms required to complete the standard Department of Commerce grant application package, but those forms will be required only for those applicants who have been recommended for funding. For projects selected in Sea Grant states, the Sea Grant Program will prepare and submit these forms on behalf of all projects selected from that state.

Unsuccessful applications will be held in the National Sea Grant Office for a period of five (5) years and then destroyed. Applications under this program are not subject to Executive Order 12372, "Intergovernmental Review of Federal Programs."

Pursuant to Executive Orders 12876, 12900, and 13021, the Department of Commerce, National Oceanic and Atmospheric Administration (DOC/NOAA) is strongly committed to broadening the participation of Historically Black Colleges and Universities (HBCU), Hispanic Serving Institutions (HSI), and Tribal Colleges and Universities (TCU) in its educational and research programs. The DOC/NOAA vision, mission, and goals are to achieve full participation by Minority Serving Institutions (MSI) in order to advance the development of human potential, to strengthen the nation's capacity to provide high-quality education, and to increase opportunities for MSIs to participate in and benefit from Federal Financial Assistance programs. DOC/NOAA encourages all applicants to include meaningful participation of MSIs. Institutions eligible to be considered MSIs are listed at the following Internet Web site: <http://www.ed.gov/offices/OCR/minorityinst.html>.

This notice contains collection-of-information requirements subject to the Paperwork Reduction Act. The use of NOAA Forms 90-2 and 90-4, or equivalents, has been approved by OMB under the control number 0648-0362. Public reporting burden for these collections of information is estimated to average 20 minutes for a NOAA Form 90-2 and 15 minutes for a NOAA Form 90-4. These response times include the

time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate, or any other aspect of this data collection, including suggestions for reducing the burden, to the National Sea Grant Office (*see* the **FOR FURTHER INFORMATION CONTACT** section).

Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the Paperwork Reduction Act, unless that collection displays a currently valid OMB control number.
