*Proposed Project:* Evaluation of Customer Satisfaction of the Centers for Disease Control and Prevention (CDC) and Agency for Toxic Substances and Disease Registry (ATSDR) Internet Home Page and Links (OMB. No. 0920-0449)—Extension—CDC and ATSDR proposes to continue to conduct consumer satisfaction research around its Internet site in order to determine whether the information, services, and materials on this web site are presented in an appropriate technological format and whether it meets the needs, wants, and preferences of visitors or “customers” to the Internet site. The re-authorized survey will be conducted over the next three years, and survey results will be analyzed and interpreted semiannually. Customers on the web site will only be asked to respond once.

Information on the site focuses on disease prevention, health promotion, and epidemiology. The site is designed to serve the general public, persons at risk for disease, injury, and illness, and health professionals. This research will ensure that these audiences have the opportunity to provide “customer feedback” regarding the value and effectiveness of the information, services, and products of the CDC and ATSDR web site and whether these materials are easy to access, clear and informative. The annualized estimated burden is 2,166 hours.
