BILLING CODE 4310-70-P

DEPARTMENT OF THE INTERIOR**Bureau of Reclamation****Notice of Request for Extension of a Currently Approved Information Collection**

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intentions of the Bureau of Reclamation to seek extension of the information collection for the Lower Colorado River Well Inventory. The current OMB approval expires on December 31, 2002.

DATES: Comments on this notice must be received by October 11, 2002.

FOR FURTHER INFORMATION CONTACT: To obtain copies of the information collection form and to submit comments on this information collection contact: Mr. Jeffrey Addiego, Boulder Canyon Operations Office, PO Box 61470, Boulder City, NV 89006-1470; telephone (702) 293-8525; or e-mail at JAddiego@lc.usbr.gov.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of Reclamation, including whether the information shall have

practical utility; (b) the accuracy of Reclamation's estimated burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Title: Lower Colorado River Well Inventory.

OMB No. OMB No. 1006-0014.

Abstract: The Secretary of the Interior is responsible for accounting for all diversions of mainstream Colorado River water along the lower Colorado River, and for assuring that all Colorado River use is in accordance with a water use entitlement. This requires an inventory of wells along the lower Colorado River, and the gathering of specific information concerning these wells.

Description of respondents: All diversions of mainstream Colorado River water along the lower Colorado River must be accounted for and, for non-Indian diverters, in accordance with a water use contract with the Secretary of the Interior. This will affect every well owner and operator along the lower Colorado River in Arizona, California, and Nevada. Each diverter (including well pumpers) must be identified and their diversion locations and water use determined.

Frequency: These data will be collected only once for each well owner or operator as long as changes in water use, or other changes that would impact contractual or administrative requirements, are not made.

Estimated completion time: An average of 30 minutes is required for Reclamation to interview individual

well owners or operators. Reclamation will use the information collected during these interviews to complete the information collection form.

Annual responses: 1,000.

Annual burden hours: 500 hours.

Dated: July 17, 2002.

Gary Palmeter,

Manager, Property and Office Services Division.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-482]

Wolf Creek Nuclear Operating Corporation; Wolf Creek Generating Station Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to revise the antitrust conditions applicable to Kansas Gas and Electric Company (KGE) contained in Appendix C to Facility Operating License No. NPF-42 for the Wolf Creek Generating Station (WCGS), located in Coffey County, Kansas. Wolf Creek Nuclear Operating Corporation (the licensee) operates WCGS and acts

as the agent for KGE, which co-owns the facility. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would revise the antitrust conditions for KGE in Appendix C of Facility Operating License No. NPF-42 to (1) add a statement that the antitrust conditions do not restrict the rights of Kansas Electric Power Cooperative, Inc. (KEPCo) or the duties of KGE, that may exist beyond, and are not inconsistent with, the antitrust conditions, (2) define "KGE members in licensee's service area" in the appendix to include all KEPCo members with facilities in Western Resources, Inc.'s and KGE's combined service area, (3) delete license conditions restricting KEPCo's use of the power from WCGS, (4) remove out-of-date conditions, and (5) update conditions to be consistent with the terms and conditions of Western Resources' Federal Energy Regulatory Commission open access transmission tariff. Western Resources is the parent company of KGE. The proposed action is in accordance with the licensee's application dated June 27, 2000, as supplemented by letters dated January 31, May 2, and October 30, 2001, and May 10, 2002.

The Need for the Proposed Action

The proposed action is needed, according to the licensee's application, to update KGE's antitrust conditions and make the antitrust conditions consistent with the terms and conditions of Western Resources' Federal Energy Regulatory Commission open access transmission tariff.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes that the proposed license amendment involves administrative actions which have no effect on plant equipment or operation.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed

action does not have a potential to affect any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

The action does not involve the use of any different resource than those previously considered in NUREG-0878, "Final Environmental Statement Related to the Operation of Wolf Creek Generating Station, Unit No. 1," dated June 1982.

Agencies and Persons Consulted

On August 5, 2002, the staff consulted with the Kansas State official, Mr. Thomas A. Conley of the Kansas Department of Health and Environment regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letters dated June 27, 2000, January 31, May 2, and October 30, 2001, and May 10, 2002. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in

accessing the documents located in ADAMS, should contact the NRC PDR Reference staff at 1-800-397-4209, or 301-415-4737, or by e-mail at pdr@nrc.gov.

Dated at Rockville, Maryland, this 6th day of August 2002.

For the Nuclear Regulatory Commission.

Stephen Dembek,

Chief, Section 2 Project Directorate IV, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service.

ACTION: Notice of proposal to consolidate two systems of records.

SUMMARY: The Postal Service, primarily for ease of reference, has determined it necessary to consolidate the descriptions of two records systems previously reported separately. The description of USPS 050.010—Finance Records, Employee Travel Records (Accounts Payable), is combined with USPS 050.060—Finance Records, Accounts Payable Files. The Postal Service has determined that the description of USPS 050.060 should be expanded in order to provide a more complete picture of the scope of the information maintained. System modifications and the two added new routine uses (3 and 4) enhance the description and permit disclosure of information about employees to the government credit card vendor and to the employee's designated financial institution.

DATES: Any interested party may submit written comments on the proposed amendments and additions. This proposal becomes effective without further notice September 23, 2002, unless comments received on or before that date result in a contrary determination.

ADDRESSES: Written comments on this proposal should be mailed or delivered to the Records Office, Room 5846, 475 L'Enfant Plaza SW., Washington, DC 20260-5846. Copies of all written comments will be available at the above address for public inspection and photocopying between 8 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Robert J. Faruq at (202) 268-2608.

SUPPLEMENTARY INFORMATION: The proposed revision to Privacy Act system
