

or outside the Indiana coastal zone that are reasonably likely to affect any land or water use or natural resources of the Indiana coastal zone must be consistent to the maximum extent practicable with the enforceable policies of the LMCP. In addition, activities within or outside the Indiana coastal zone requiring a federal license or permit listed in the P/FEIS, and federal financial assistance to state agencies and local governments, that are reasonably likely to affect any land or water use or natural resource of the Indiana coastal zone must be consistent with the enforceable policies of the LMCP.

Chapter 5 of the P/FEIS identifies the enforceable policies of the Indian program. Chapter 11 of the P/FEIS identifies federally licensed or permitted activities subject to the federal consistency requirements. Chapter 4 of the P/FEIS, as well as the CZMA regulations at 15 CFR Part 930, provide specific procedures to be used in the Federal/State coordination process.

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene a public meeting via conference call of the Reef Fish Advisory Panel (AP) and Reef Fish Scientific and Statistical Committee (SSC).

DATES: The AP meeting will be via conference call on August 26, 2002 beginning at 10 a.m. EST. The SSC meeting will be via conference call on August 28, 2002 beginning at 10 a.m. EST.

ADDRESSES: A listening station will be available at the following locations: NMFS Southeast Regional Office, 9721 Executive Center Drive, North, St. Petersburg, FL 33702, Contact: Joyce Mochrie at 727-570-5305; NMFS Pascagoula Laboratory, 3909 Frederic Street, Pascagoula, MS 39567, Contact: Cheryl Hinkel at 228-762-4591, ext. 267.

Council address: Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619.

FOR FURTHER INFORMATION CONTACT: Peter Hood, Fishery Biologist, Gulf of Mexico Fishery Management Council; telephone: 813-228-2815.

SUPPLEMENTARY INFORMATION: The AP and SSC will be convened to review the Council's proposed Secretarial Amendment 2 to the Reef Fish Fishery Management Plan (FMP) to set greater amberjack Sustainable Fisheries Act (SFA) targets and thresholds and to set a rebuilding plan. The AP and SSC will be convened via conference call beginning at 10 a.m. EST on August 26, 2002 and August 28, 2002, respectively. The greater amberjack resource in the Gulf of Mexico was declared overfished by NMFS on February 9, 2001 based on the 2000 greater amberjack stock assessment. The results of several analyses indicated that the stock biomass was below the level needed to sustain harvest at maximum sustainable yield (MSY), with the best estimate indicating that the stock biomass was at less than half the biomass needed to sustain MSY, below the minimum level allowed under the 1998 NMFS National Standard Guidelines. However, NMFS concluded that overfishing is not currently occurring due to the recent implementation of management measures that were not reflected in the stock assessment. These measures included: (1) a reduction in the greater amberjack recreational bag limit from 3 to 1 fish (implemented 1997); (2) a commercial closed season during March, April and May (implemented 1998); and (3) partial protection of misidentified juvenile greater amberjack by establishment of a slot limit on lesser amberjack/banded rudderfish of 14 and 22 inches fork length plus an aggregate 5-fish recreational bag limit. As a result of this finding, additional measures to end overfishing are not needed, but a plan to rebuild the stock is needed.

Because NMFS has declared the stock overfished, the Council is required to rebuild the stock to a level where it is no longer considered overfished. Before a plan can be put into effect, management targets and thresholds that the stock needs to achieve must be defined. These are: definitions for maximum sustainable yield (MSY), optimum yield (OY), the minimum stock size threshold (MSST) below which a stock is considered to be overfished, the maximum fishing mortality threshold (MFMT) above which a stock is considered to be undergoing overfishing. The proposed amendment also provides alternative rebuilding plans that will rebuild the stock within 10 years or less and are based on various rebuilding strategies.

A copy of the agenda can be obtained by contacting the Council (see **ADDRESSES**).

Although non-emergency issues not contained in the agenda may come before the AP/SSC for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA), those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305 (c) of the MSFCMA, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

The listening station is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at the Council (see **ADDRESSES**) by August 19, 2002.

Dated: August 7, 2002.

DEPARTMENT OF DEFENSE**Department of the Army****Privacy Act of 1974; System of Records**

AGENCY: Department of the Army, DoD.

ACTION: Notice to amend a system of records.

SUMMARY: The Department of the Army is amending a system of records notice in its existing inventory of records systems subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended.

The amendment consists of correcting a duplicate system identifier assigned to a system of records notice that was published on July 31, 2002, at 67 FR 49679. The system identifier for A0351 HSC-AHS, U.S. Army Medical Department School and Academy of Health Sciences Academic Records (February 15, 2002, 67 FR 7140) should have been changed to 'A0351a DASG'. This amendment corrects this oversight.

DATES: This proposed action will be effective without further notice on
