

Express Purchase site without using the Passport Wallet;

(3) that Passport did not collect any personally identifiable information other than that described in its privacy policy, when, in fact, Passport collected, and maintained for a limited period of time, a personally identifiable record of the sites to which a Passport user signed in, along with the dates and times of sign in, which customer service representatives linked to a user's name in order to respond to a user's request for service; and

(4) that the Kids Passport service provides parents with control over the information their children could provide to participating Passport sites and the use of that information by such sites.

The proposed consent order applies to the collection and storage of personal information from or about consumers in connection with the advertising, marketing, promotion, offering for sale, or sale of Passport, Kids Passport, Passport Wallet, any substantially similar product or service, or any multisite online authentication service. It contains provisions designed to prevent Microsoft from engaging in practices similar to those alleged in the complaint in the future.

Specifically, Part I of the proposed order prohibits misrepresentations regarding Microsoft's information practices, including:

- what personal information is collected from or about consumers;
- the extent to which respondent's product or service will maintain, protect or enhance the privacy, confidentiality, or security of any personally identifiable information collected from or about consumers.

- the steps respondent will take with respect to personal information it has collected in the event that it changes the terms of the privacy policy in effect at the time the information was collected;

- the extent to which the service allows parents to control what information their children can provide to participating sites or the use of that information by such sites; and
- any other matter regarding the collection, use, or disclosure of personally identifiable information.

Part II of the proposed order requires Microsoft to establish and maintain a comprehensive information security program in writing that is reasonably designed to protect the security, confidentiality, and integrity of personal information collected from or about consumers. The security program must contain administrative, technical, and physical safeguards appropriate to Microsoft's size and complexity, the

nature and scope of its activities, and the sensitivity of the personal information collected from or about consumers. Specifically, the order requires Microsoft to:

- designate an employee or employees to coordinate and be accountable for the information security program;

- identify material internal and external risks to the security, confidentiality, and integrity of customer information that could result in the unauthorized disclosure, misuse, alteration, destruction, or other compromise of such information, and assess the sufficiency of any safeguards in place to control these risks. At a minimum, this risk assessment will include consideration of risks in each area of relevant operation, including: (1) employee training and management; (2) information systems, including network and software design, information processing, storage, transmission and disposal; and (3) prevention, detection, and response to attacks, intrusions, or other systems failures;

- design and implement reasonable safeguards to control the risks identified through risk assessment, and regularly test or monitor the effectiveness of the safeguards' key controls, systems, and procedures; and

- evaluate and adjust its information security program in light of the results of testing and monitoring, any material changes to its operations or business arrangements, or any other circumstances that Microsoft knows or has reason to know may have a material impact on its information security program.

Part III of the proposed order requires that Microsoft obtain within one year, and on a biannual basis thereafter, an assessment and report from a qualified, objective, independent third-party professional, using procedures and standards generally accepted in the profession, certifying that: (1) Microsoft has in place a security program that provides protections that meet or exceed the protections required by Part II of this order; and (2) Microsoft's security program is operating with sufficient effectiveness to provide reasonable assurance that the security, confidentiality, and integrity of consumer's personal information has been protected.

Parts IV through VII of the proposed order are reporting and compliance provisions. Part IV requires Microsoft's retention of materials relating to its privacy and security representations and to its compliance with the order's information security program. Part V requires dissemination of the order now

and in the future to persons with responsibilities relating to the subject matter of the order. Part VI ensures notification to the FTC of changes in corporate status. Part VII mandates compliance reports within sixty (60) days after service of the order and at such other times as the Federal Trade Commission may require. Part VII is a provision "sunsetting" the order after twenty (20) years, with certain exceptions.

The purpose of this analysis is to facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify their terms in any way.

By direction of the Commission.

C. Landis Plummer,

Acting Secretary.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503. Written comments should be received within 30 days of this notice.

Proposed Project: Joint Canadian U.S. Survey of Health (CUJHS)—New—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC). CUJHS is a one-time collaborative effort of Statistics Canada and the U.S. National Center for Health Statistics to conduct a telephone survey in both countries using the same questionnaire. Approximately 3,000 adults will be interviewed in Canada and 5,000 adults in the U.S. The questionnaire will cover chronic health conditions, functional status and limitations, smoking, height and weight, cancer screening, access to health care, and demographics. The project will be jointly funded with each agency

covering the costs of data collection of their own sample and the sharing of all other costs.

The purpose of the survey is to move the national health surveys of both countries toward closer comparability so the health status among residents of countries can be compared in a more concrete manner. This will allow researchers to study the effect of

variations in health systems on health care, health status and functional status. This effort can also serve as a model for improving comparability among national health studies generally. A need for such comparability has been noted by the World Health Organization, the Centers for Disease Control and Prevention and the Robert

Wood Johnson Foundation who is funding the study in part.

The specific data from the CUJHS may well contribute toward meeting some of the research needs directly. Its longer term impact will be to demonstrate best practices for use in bi-national and multi-national health surveys. The annual burden for this data collection is 2,292 hours.

Respondents	Number of respondents	Number of responses/respondent	Avg. burden/response (in hours)
Screener	7500	1	5/60
Survey	5000	1	20/60

Dated: August 6, 2002.
Nancy E. Cheal,
Acting Associate Director for Policy, Planning and Evaluation, , Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare and Medicaid Services

[Document Identifier: CMS-R-293]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Type of Information Collection Request: Extension of a currently

approved collection; *Title of Information Collection:* Medicare Telephone Customer Satisfaction Survey; *Form No.:* CMS-R-293 (OMB# 0938-0780); *Use:* In response to the National Partnership for Reinventing Government Performances and Results Act (GPRA), CMS is implementing a number of initiatives to measure and then improve the customer service that is provided by Medicare Call Centers, that service over 21 million calls annually. This particular initiative is to provide the 75+ call centers with suitably trained staff and survey materials to conduct a standardized random sample of beneficiary calls, and then administer a customer satisfaction questionnaire. The goal is to develop a national baseline measure of customer satisfaction with the Medicare telephone service provided by carriers and fiscal intermediaries. The respondents for this study will consist of beneficiaries and their advocates who phone Medicare call centers.; *Frequency:* On occasion, semi-annually, and other (single 800# survey); *Affected Public:* Individuals or households; *Number of Respondents:* 50,000; *Total Annual Responses:* 50,000; *Total Annual Hours:* 3,500

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS's Web site address at <http://www.hcfa.gov/regs/prdact95.htm>, or e-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@hcfa.gov, or call the Reports Clearance Office on (410) 786-1326. Written comments and recommendations for the proposed information collections must be mailed within 60 days of this notice directly to the CMS Paperwork Clearance Officer designated at the following address: CMS, Office of Strategic Operations and Regulatory Affairs, Division of

Regulations Development and Issuances Attention: Melissa Musotto Room N2-14-26 7500 Security Boulevard Baltimore, Maryland 21244-1850.

Dated: August 6, 2002.
John P. Burke, III,
Paperwork Reduction Act Team Leader, CMS Reports Clearance Officer, Office of Strategic Operations and Strategic Affairs, Division of Regulations Development and Issuances.
