

working group shall consist of no more than seven members of the Advisory Committee and no more than four scientific or technical personnel, as considered necessary by the Commissioners. Currently, there are four species working groups advising the Committee and the U.S. Commissioners. Specifically, there is a Bluefin Tuna Working Group, a Swordfish Working Group, a Billfish Working Group, and a BAYS (Bigeye, Albacore, Yellowfin, and Skipjack) Tunas Working Group. Technical Advisors to the species working groups serve at the pleasure of the U.S. Commissioners; therefore, the Commissioners can choose to alter appointments at any time.

Nominations to the Advisory Committee or to a species working group should include a letter of interest and a resume or curriculum vitae. Letters of recommendation are useful but not required. Self-nominations are acceptable. When making a nomination, please clearly specify which appointment (Advisory Committee member or technical advisor to a species working group) is being sought. Requesting consideration for placement on both the Advisory Committee and a species working group is acceptable. Those interested in a species working group technical advisor appointment should indicate which of the four working groups is preferred. Placement on the requested species working group, however, is not guaranteed.
