### 40 CFR Part 55

[FRL-7260-6]

#### Outer Continental Shelf Air Regulations; Consistency Update for California

**AGENCY:** Environmental Protection Agency ("EPA").

**ACTION:** Proposed rule—consistency update.

**SUMMARY:** EPA is proposing to update a portion of the Outer Continental Shelf ("OCS") Air Regulations. Requirements applying to OCS sources located within 25 miles of states' seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area ("COA"), as mandated by section 328(a)(1) of the Clean Air Act, as amended in 1990 ("the Act"). The portion of the OCS air regulations that is being updated pertains to the requirements for OCS sources for which the South Coast Air Quality Management District (South Coast AQMD) and Ventura County Air Pollution Control District (Ventura County APCD) are the designated COAs. The intended effect of approving the OCS requirements for the above Districts is to regulate emissions from OCS sources in accordance with the requirements onshore. The changes to the existing requirements discussed below are proposed to be incorporated by reference into the Code of Federal Regulations and are listed in the appendix to the OCS air regulations.

**DATES:** Comments on the proposed update must be received on or before September 16, 2002.

**ADDRESSES:** Comments must be mailed (in duplicate if possible) to: EPA Air Docket (Air-4), Attn: Docket No. A-93-16 Section XXVI, Environmental Protection Agency, Air Division, Region 9, 75 Hawthorne St., San Francisco, CA 94105.

**Docket:** Supporting information used in developing the rule and copies of the documents EPA is proposing to incorporate by reference are contained in Docket No. A-93-16 Section XXVI. This docket is available for public inspection and copying Monday-Friday during regular business hours at the following locations:

EPA Air Docket (Air-4), Attn: Docket No. A-93-16 Section XXVI, Environmental Protection Agency, Air Division, Region 9, 75 Hawthorne St., San Francisco, CA 94105.

### I. Background Information

#### A. Why Is EPA Taking This Action?

On September 4, 1992, EPA promulgated 40 CFR part 55,<sup>1</sup> which established requirements to control air pollution from OCS sources in order to attain and maintain federal and state ambient air quality standards and to comply with the provisions of part C of title I of the Act. Part 55 applies to all OCS sources offshore of the States except those located in the Gulf of Mexico west of 87.5 degrees longitude. Section 328 of the Act requires that for such sources located within 25 miles of a state's seaward boundary, the requirements shall be the same as would be applicable if the sources were located in the COA. Because the OCS requirements are based on onshore requirements, and onshore requirements may change, section 328(a)(1) requires that EPA update the OCS requirements as necessary to maintain consistency with onshore requirements.

Pursuant to § 55.12 of the OCS rule, consistency reviews will occur (1) at least annually; (2) upon receipt of a Notice of Intent under § 55.4; or (3) when a state or local agency submits a rule to EPA to be considered for incorporation by reference in part 55. This proposed action is being taken in response to the submittal of rules by

three local air pollution control agencies. Public comments received in writing within 30 days of publication of this document will be considered by EPA before publishing a final rule.

Section 328(a) of the Act requires that EPA establish requirements to control air pollution from OCS sources located within 25 miles of states' seaward boundaries that are the same as onshore requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into part 55 as they exist onshore. This limits EPA's flexibility in deciding which requirements will be incorporated into part 55 and prevents EPA from making substantive changes to the requirements it incorporates. As a result, EPA may be incorporating rules into part 55 that do not conform to all of EPA's state implementation plan (SIP) guidance or certain requirements of the Act. Consistency updates may result in the inclusion of state or local rules or regulations into part 55, even though the same rules may ultimately be disapproved for inclusion as part of the SIP. Inclusion in the OCS rule does not imply that a rule meets the requirements of the Act for SIP approval, nor does it imply that the rule will be approved by EPA for inclusion in the SIP.

### II. EPA's Evaluation

#### A. What Criteria Were Used To Evaluate Rules Submitted To Update 40 CFR Part 55?

In updating 40 CFR part 55, EPA reviewed the rules submitted for inclusion in part 55 to ensure that they are rationally related to the attainment or maintenance of federal or state ambient air quality standards or part C of title I of the Act, that they are not designed expressly to prevent exploration and development of the OCS and that they are applicable to OCS sources. 40 CFR 55.1. EPA has also evaluated the rules to ensure they are not arbitrary or capricious. 40 CFR 55.12 (e). In addition, EPA has excluded administrative or procedural rules,<sup>2</sup> and requirements that regulate toxics which are not related to the attainment and maintenance of federal and state ambient air quality standards.

<sup>2</sup> Each COA which has been delegated the authority to implement and enforce part 55, will use its administrative and procedural rules as onshore. However, in those instances where EPA has not delegated authority to implement and enforce part 55, EPA will use its own administrative and procedural requirements to implement the substantive requirements. 40 CFR 55.14 (c)(4).

<sup>1</sup> The reader may refer to the Notice of Proposed Rulemaking, December 5, 1991 (56 FR 63774), and the preamble to the final rule promulgated September 4, 1992 (57 FR 40792) for further background and information on the OCS regulations.

*B. What Rule Revisions Were Submitted To Update 40 CFR Part 55?*

1. After review of the rules submitted by South Coast AQMD against the

criteria set forth above and in 40 CFR part 55, EPA is proposing to make the following new rule applicable to OCS sources for which the South Coast AQMD is designated as the COA (note:

no requirements that are not related to the attainment and maintenance of federal and state ambient air quality standards will be incorporated to regulate toxics):

Rule #	Rule names	Adoption date
1137 .....	PM10 Emission Reductions from Woodworking Operations .....	02/01/02

2. After review of the rule submitted by Ventura County APCD against the criteria set forth above and in 40 CFR part 55, EPA is proposing to make the following rule revisions applicable to OCS sources for which the Ventura County APCD is designated as the COA:

Rule #	Rule name	Adoption date
10 .....	Permits Required .....	5/14/02
26.1 .....	New Source Review—Definitions .....	5/14/02
26.2 .....	New Source Review—Requirements .....	5/14/02
26.3 .....	New Source Review—Exemptions .....	5/14/02
26.6 .....	New Source Review—Calculations .....	5/14/02
42 .....	Permit Fees .....	5/14/02
74.6 .....	Solvent Cleaning and Degreasing .....	1/08/02
74.23 .....	Stationary Gas Turbines .....	1/08/02
74.24.1 .....	Pleasure Craft Coating & Commercial Boatyard Operations .....	1/08/02

The following new rule was submitted and will be incorporated:

Rule #	Rule name	Adoption date
26.11 .....	New Source Review—ERC Evaluation At Time of Use .....	5/14/02

The following rule was submitted but will not be incorporated because it is Administrative:

Rule #	Rule name	Adoption date
26.4 .....	New Source Review—Emissions Banking .....	5/14/02

**III. Administrative Requirements**

*A. Executive Order 12866*

The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866, Regulatory Planning and Review.

*B. Executive Order 13045*

Executive Order 13045, entitled Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997), applies to any rule that: (1) is determined to be “economically significant” as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency.

This rule is not subject to Executive Order 13045 because it does not involve

decisions intended to mitigate environmental health or safety risks.

*C. Executive Order 13175*

Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 6, 2000), requires EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” “Policies that have tribal implications” is defined in the Executive Order to include regulations that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and the Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes.”

This proposed rule does not have tribal implications. It will not have substantial direct effects on tribal governments, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified in Executive Order 13175.

Thus, Executive Order 13175 does not apply to this rule. In the spirit of Executive Order 13175, and consistent with EPA policy to promote communications between EPA and tribal governments, EPA specifically solicits additional comment on this proposed rule from tribal officials.

*D. Executive Order 13132*

Executive Order 13132, entitled Federalism (64 FR 43255, August 10, 1999) revokes and replaces Executive Orders 12612, Federalism and 12875, Enhancing the Intergovernmental Partnership. Executive Order 13132 requires EPA to develop an accountable process to ensure “meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications.” “Policies that have federalism implications” is defined in the Executive Order to include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.” Under Executive Order 13132, EPA may not

issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or EPA consults with State and local officials early in the process of developing the proposed regulation. EPA also may not issue a regulation that has federalism implications and that preempts State law unless the Agency consults with State and local officials early in the process of developing the proposed regulation.

This proposed rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, because it merely acts on a state rule implementing a federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. Thus, the requirements of section 6 of the Executive Order do not apply to this proposed rule.

*E. Regulatory Flexibility Act, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), 5 U.S.C. 601 et. seq.*

The Regulatory Flexibility Act (RFA) generally requires an agency to prepare a regulatory flexibility analysis for any rule that will have a significant economic impact on a substantial number of small entities. The RFA applies only to rules subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions.

This proposed rule will not have a significant impact on a substantial number of small entities because consistency updates do not create any new requirements but simply act on requirements that the State is already imposing. Therefore, because the consistency update approval does not create any new requirements, I certify that this action will not have a significant economic impact on a substantial number of small entities.

*F. Unfunded Mandates*

Under section 202 of the Unfunded Mandates Reform Act of 1995

(“Unfunded Mandates Act”), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated costs to State, local, or tribal governments in the aggregate; or to private sector, of \$100 million or more. Under section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the proposed action does not include a Federal mandate that may result in estimated costs of \$100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This proposed Federal action acts on pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

*G. National Technology Transfer and Advancement Act*

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new regulation. To comply with NTTAA, EPA must consider and use “voluntary consensus standards” (VCS) if available and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

EPA believes that VCS are inapplicable to today’s proposed action because it does not require the public to perform activities conducive to the use of VCS.

*H. Executive Order 13211 (Energy Effects)*

This rule is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355 (Mary 22, 2001)) because it is not a significant action under Executive Order 12866.

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 25

[IB Docket 01-96; FCC 02-123]

#### Policies and Service Rules for the Non-Geostationary Satellite Orbit, Fixed Satellite Service in the Ku-Band

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** The Federal Communications Commission has adopted licensing and service rules for entities to provide Non-Geostationary Satellite Orbit, Fixed Satellite Service (NGSO FSS) in the Ku-Band frequencies, specifically the 10.7-11.7 GHz, 11.7-12.2 GHz, 12.2-12.7 GHz, 12.75-13.25 GHz, 13.75-14.0 GHz, and 14.0-14.5 GHz frequency bands. The Commission proposes adopting a methodology by which NGSO FSS applicants will demonstrate that they meet limits on their interference into geostationary-satellite orbit systems operating in shared frequencies. The Commission seeks comment on the means and timing for implementing that methodology. The Commission also request comment on a refinement of the definition of an in-line interference event adopted in the Report and Order for the NGSO FSS.

**DATES:** Comments are due on or before September 30, 2002 and reply comments are due on or before October 15, 2002.

**ADDRESSES:** Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554. For filing instructions, see **SUPPLEMENTARY INFORMATION**.

**FOR FURTHER INFORMATION CONTACT:** For more information regarding the proposed rule, contact J. Mark Young, Attorney Advisor, Satellite Division, International Bureau, telephone (202) 418-0762 or via the Internet at [myoung@fcc.gov](mailto:myoung@fcc.gov).

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's *Further Notice of Proposed Rulemaking* in IB Docket No. 01-96, FCC 02-123, adopted April 18, 2002 and released April 26, 2002. The complete text of this *Further Notice of Proposed Rulemaking* is available for inspection and copying during normal business hours in the FCC Reference Information Center, Portals II, 445 12th Street, SW., Room CY-A257, Washington, DC. This document may also be purchased from the Commission's duplicating contractor, Qualex International, Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone (202) 863-2893, facsimile (202) 863-2898 or via e-mail [qualexint@aol.com](mailto:qualexint@aol.com). It is also available on the Commission's Web site at <http://www.fcc.gov>.

#### Summary of the Further Notice of Proposed Rulemaking

1. The rules proposed in the *Further Notice of Proposed Rulemaking* will not slow system development or deployment. The Commission's consideration of these additional issues will not excuse licensees' noncompliance with Commission milestones or otherwise justify any extension of time to meet those milestones.

2. The Commission's review of the record in this docket suggests that the Commission could optimize spectrum efficiency in this service by refining the angular separation definition of an in-line interference event. The *Further Notice of Proposed Rulemaking* requests comment on whether the definition should be changed for this reason. The record developed in the docket also informs the Commission of a significant amount of progress in International Telecommunications Union Radiocommunication (ITU-R) studies on the power flux density criteria that sets the bounds of NGSO and geostationary satellite orbit sharing in these Ku-Band frequencies. The Commission has consistently stated that all NGSO FSS licensees will be required to demonstrate that they collectively meet a limit on aggregate power flux

density, although the means for making that demonstration had not yet been developed. In the *Further Notice of Proposed Rulemaking*, the Commission proposes to adopt the newly developed ITU-R methodology for NGSO FSS licensees, and seek comment on issues related to this new methodology.

#### Comment Filing Instructions

3. Pursuant to §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415 and 1.419, interested parties may file comments on or before September 30, 2002 and reply comments on or before October 15, 2002. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS), <http://www.fcc.gov/e-file/ecfs.html>, or by filing paper copies. See Electronic Filing of Documents in Rule Making Proceedings, 63 FR 24,121 (1998).

4. Comments filed through the ECFS can be sent as an electronic file via the Internet to <http://www.fcc.gov/e-file/ecfs.html>. Generally, only one copy of an electronic submission must be filed. If multiple docket or rule making numbers appear in the caption of this proceeding, however, commenters must transmit one electronic copy of the comments to each docket or rule making number referenced in the caption. In completing the transmittal screen, commenters should include their full name, U.S. Postal Service mailing address, and the applicable docket or rulemaking number. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions for e-mail comments, commenters should send an E-mail to [ecfs@fcc.gov](mailto:ecfs@fcc.gov), and should including the following words in the body of the message, "get form <your e-mail address>." A sample form and directions will be sent in reply.

5. Parties who choose to file by paper must file an original and four copies of each filing. If more than one docket or rule making number appear in the caption of this proceeding, commenters must submit two additional copies for each additional docket or rule making number. Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (although we continue to experience delays in receiving U.S. Postal Service mail). The Commission's contractor, Vistrionix, Inc., will receive hand-delivered or messenger-delivered paper filings for the Commission's Secretary at 236 Massachusetts Avenue, NE., Suite 110, Washington, DC 20002. The filing hours at this location are 8 a.m. to 7 p.m. All hand deliveries must be held together with rubber bands or fasteners.
