

j. *Cooperating Agencies:* We are asking Federal, State, and local agencies and Indian tribes with jurisdiction and/or special expertise with respect to environmental issues to cooperate with us in the preparation of the environmental document. Agencies who would like to request cooperating status should follow the instructions for filing comments described in item k below.

k. Pursuant to Section 4.32(b)(7) of 18 CFR of the Commission's regulations, if any resource agency, Indian tribe, or person believes that an additional scientific study should be conducted in order to form an adequate factual basis for complete analysis of the application on its merit, the resource agency, Indian tribe, or person must file a request for a study with the Commission not later than 60 days from the date of this notice and serve a copy of the request on the applicant.

l. Deadline for filing additional study requests and requests for cooperating agency status: September 30, 2002.

All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the documents on that resource agency.

Additional study requests and requests for cooperating agency status may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site (<http://www.ferc.gov>) under the "e-Filing" link.

p. With this notice, we are initiating consultation with the Wisconsin and Michigan State Historic Preservation Officers (SHPO), as required by Section 106 of the National Preservation Act and the regulations of the Advisory Council on Historic Preservation, 36 CFR 800.4.

Note: The above paragraph initiating consultation with the SHPOs may be unnecessary if that language was included in the pre-filing notice requesting preliminary terms and conditions.

q. *Procedural schedule and final amendments:* The application should be processed according to the following Hydro Licensing Schedule. Revisions to the schedule will be made as appropriate. Because the issues in this relicensing have been resolved prior to the final license application being filed, the staff does not anticipate issuing a draft environmental assessment (EA). Rather, comments, terms and conditions, recommendations, prescriptions, and reply comments, if any, will be addressed in an EA issued in the fall of 2003.

Title: NESHAP for Inorganic Arsenic Emissions from Glass Manufacturing Plants (Part 61, Subpart N), OMB Control Number 2060-0043, EPA ICR Number 1081.07, expiration date August 31, 2002. This is a request for extension of a currently approved collection.

Abstract: The National Emission Standards for Hazardous Air Pollutants

(NESHAP) for Inorganic Arsenic Emissions from Glass Manufacturing Plants (40 CFR part 61, subpart N) were proposed on July 20, 1983, and promulgated on August 4, 1986. The standards were amended on May 31, 1990, to add an alternative test method. These standards apply to each glass melting furnace that uses commercial arsenic as a raw material. These standards do not apply to pot furnaces. Also, rebricking is not considered construction or modification for the purposes of 40 CFR 61.05. This information is being collected to assure compliance with 40 CFR part 61, subpart N. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all sources subject to NESHAP. Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated State or local authority. In the event that there is no such delegated authority, the reports are sent directly to the United States Environmental Protection Agency (EPA) Regional Office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on October 29, 2001 (66 FR 54514). No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 141 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing

and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Glass manufacturing plants that use commercial arsenic as a raw material.

Estimated Number of Respondents: 28.

Frequency of Response: Semi-annually.

Estimated Total Annual Hour Burden: 4,524 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$98,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1081.07 and OMB Control No. 2060-0043 in any correspondence.

Dated: August 2, 2002.

SUPPLEMENTARY INFORMATION:

Title: Risk Management Program Requirements and Petitions to Modify the List of Regulated Substances under section 112(r) of the Clean Air Act (CAA); EPA ICR No. 1656.09, expiring September 30, 2002. This is a request for extension of a currently approved collection.

Abstract: The 1990 CAA Amendments added section 112(r) to provide for the prevention and mitigation of accidental releases. Section 112(r) mandates that EPA promulgate a list of "regulated substances," with threshold quantities and establish procedures for the addition and deletion of substances from the list of "regulated substances." Processes at stationary sources that contain a threshold quantity of a regulated substance are subject to accidental release prevention regulations promulgated under CAA section 112(r)(7). These two rules are codified as 40 CFR part 68.

This information collection request addresses the following information requirements: (1) Documenting sources' risk management programs and submitting a source risk management plan (RMP) under CAA section 112(r)(7). The regulations include requirements for covered sources to implement and maintain documentation for a risk management program and submit an RMP (including information on a source's hazard assessment, prevention program, and emergency response program) to EPA. (2) Collecting and submitting information to support
