*Description:* The Consumer Expenditure (CE) Surveys are used to gather information on expenditures, income, and other related subjects. These data are used to periodically update the National Consumer Price Index. The BLS will use data collected in the CE Surveys to (1) provide data required for the CPI revision; (2) provide a continuous flow of data on income and expenditure patterns for use in economic analysis and policy formulation; and (3) provide a flexible consumer survey vehicle that is available for use by other Federal Government agencies. In addition, the data are used by a variety of researchers in academia and the private sector. The data are collected from a national probability sample of households designed to represent the total civilian non-institutional population. The BLS conducts the CE Survey under the authority of Title 29, Section 2 of the United States Code. The Census Bureau collects information in the CE Surveys under the authority of Title 13, United States Code, Section 8b, that allows the Census Bureau to undertake surveys for other agencies.
