Section 32(a) of PUHCA defines an Exempt Wholesale Generator (EWG) as an individual determined by the Commission to be engaged directly or indirectly through one or more affiliates, and exclusively in the business of owning and/or operating all or part of eligible facilities and selling electric energy at wholesale. An eligible facility may include interconnecting transmission facilities necessary to effect wholesale power sales. Persons granted EWG status will be exempt from regulation under PUHCA. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR Part 365.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually	Number of responses per respondent	Average burden hours per response	Total annual burden hours
(1)	(2)	(3)	(1)×(2)×(3)
112	1	6	672

Estimated total cost burden to respondents is \$37,813 (672 hours/2,080 hours per year x \$117,041 per year). The cost per respondent is equal to \$338.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching

data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information

is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond.

Deputy Secretary.
