SUPPLEMENTARY INFORMATION:

Public Comment Procedures

Please submit your comments on issues related to the supplementary rules, in writing, according to the **ADDRESSES** section above. Comments on the supplementary rules should be specific, should be confined to issues pertinent to the supplementary rules, and should explain the reasons for any recommended change. Where possible, your comments should reference the specific section or paragraph of the interim final rule that you are addressing. BLM may not necessarily consider, or include in the Administrative Record, comments that we receive after the close of the comment period (see **DATES**) or comments delivered to an address other than those listed above (see **ADDRESSES**).

Under certain conditions, BLM can keep your personal identification confidential. You must prominently state your request for confidentiality at the beginning of your comment. BLM will consider withholding your name, street address, and other identifying information on a case-by-case basis to the extent allowed by law. BLM will make available to the public all submissions from organizations and businesses and from individuals identifying themselves as representatives or officials of organizations or businesses.

Discussion of Rules

Certain other prohibited activities were recommended in the Recreation Area Management Plan for the Sand Mountain Recreation Area. These recommendations subsequently were published as specific prohibited acts in the **Federal Register** on July 1, 1992. These rules required minor modification and clarification.

Certain other supplementary rules are necessary in order to provide for the safety of visitors to the Recreation Areas. Speed limits are needed on access roads and in designated camping areas. Ignition of fireworks is a violation of State law and a danger to both persons and property.

Clarification of existing rules is needed to protect plant life, wildlife habitat and historic resources, and due to increases in public use we are proposing additional rules. Indiscriminate vehicle use in that portion of the Sand Mountain Recreation Area, where the off-road vehicle designation is "limited", has destroyed vegetation, caused harassment of wildlife, and threatens the integrity of the Sand Springs Pony Express Station and Desert Study Area.

These supplementary rules specifically identify those routes that are open to vehicle use within this "limited" designation area. Rules regarding the closure of certain lands within the Recreation Area to camping were published in the **Federal Register** on July 1, 1992. This notice contains a legal description of those lands and designates the area of Developed Recreation Site for the Walker Lake Recreation Area.

Procedural Matters

These supplementary rules are not a significant regulatory action and are not subject to review by Office of Management and Budget under Executive Order 12866. These supplementary rules will not have an effect of \$100 million or more on the economy. They will not adversely affect in a material way the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities. These supplementary rules will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency. These supplementary rules do not alter the budgetary effects of entitlements, grants, user fees, or loan programs or the right or obligations of their recipients; nor do they raise novel legal or policy issues.

BLM has determined that the supplementary rules are categorically excluded from environmental review under section 102(2)(C) of the National Environmental Policy Act, pursuant to 516 Departmental Manual (DM), Chapter 2, Appendix 1. In addition, the supplementary rules do not meet any of the 10 criteria for exceptions to categorical exclusions listed in 516 DM, Chapter 2, Appendix 2. Pursuant to Council on Environmental Quality regulations (40 CFR 1508.4) and the environmental policies and procedures of the Department of the Interior, the term "categorical exclusions" means a category of actions which do not individually or cumulatively have a significant effect on the human environment and that have found to have no such effect in procedures adopted by a Federal agency and for which neither an environmental assessment nor an environmental impact statement is required.

Congress enacted the Regulatory Flexibility Act of 1980, as amended, 5 U.S.C. 601-612, to ensure that Government regulations do not unnecessarily or disproportionately burden small entities. The RFA requires a regulatory flexibility analysis if a rule would have a significant economic

impact, either detrimental or beneficial, on a substantial number of small entities. These supplementary rules are not a "major rule" as defined at 5 U.S.C. 804(2). These rules are limited in scope to a small section of public land and are intended to establish rules of conduct and acceptable behavior at the site for the protection of resources and the visiting public.

These supplementary rules do not impose an unfunded mandate on State, local, or tribal governments or the private sector of more than \$100 million per year; nor do these supplementary rules have a significant or unique effect on State, local, or tribal governments or the private sector. These supplementary rules do not require funding or resources from State, Local, or tribal governments. These supplementary rules do not affect private property or property rights nor are they intended to deny or constrain any valid existing right. Therefore, BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*).

These supplementary rules do not represent a government action capable of interfering with constitutionally protected property rights. The supplementary rules are applicable only on public land managed by the BLM and do not extend to adjacent private property. No taking of private property is contemplated in these supplementary rules. Therefore, the Department of the Interior has determined that the supplementary rules would not cause a taking of private property or require further discussion of takings implications under this Executive Order.

The supplementary rules will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. These supplementary rules are intended to protect property, resources, and the visiting public on a designated area of public land. The scope and effect of these supplementary rules are limited to those public purposes and do not redefine or impact established governmental structures, responsibilities, policies, or procedures. Therefore, in accordance with Executive Order 13132, BLM has determined that these supplementary rules do not have sufficient Federalism implications to warrant preparation of a Federalism Assessment.

Under Executive Order 12988, we have determined that these

supplementary rules will not unduly burden the judicial system and that these supplementary rules meet the requirements of sections 3(a) and 3(b)(2) of the Order. These supplementary rules have been written in plain text and are clearly understandable.

In accordance with Executive Order 13175, we have found that this final rule does not include policies that have tribal implications. These supplementary rules do not impact tribal lands nor are they intended to limit or interfere with any right or privilege granted to Native Americans.

These supplementary rules do not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.*
