Comments may also be delivered to Room 6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. during Federal workdays. To be considered in the scoping process, written comments should be postmarked by October 25, 2002. Electronic comments may be sent by the Internet to the NRC at RobinsonEIS@nrc.gov. Electronic submissions should be sent no later than October 25, 2002, to be considered in the scoping process. Comments will be available electronically and accessible through the NRC's PERR link <http://www.nrc.gov/reading-rm/adams.html>.

Participation in the scoping process for the supplement to the GEIS does not entitle participants to become parties to the proceeding to which the supplement to the GEIS relates. Notice of opportunity for a hearing regarding the renewal application was the subject of the aforementioned **Federal Register** notice of acceptance for docketing. Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

At the conclusion of the scoping process, the NRC will prepare a concise summary of the determination and conclusions reached, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process. The summary will also be available for inspection through the PERR link. The staff will then prepare and issue, for comment, the draft supplement to the GEIS, which will be the subject of separate notices and separate public meetings. Copies will be available for public inspection at the above-mentioned addresses, and one copy per request will be provided free of charge. After receipt and consideration of the comments, the NRC will prepare a final supplement to the GEIS, which will also be available for public inspection.

Information about the proposed action, the supplement to the GEIS, and the scoping process may be obtained from Mr. Emch at the aforementioned telephone number or e-mail address.

NUCLEAR REGULATORY COMMISSION

Notice of Receipt of Supplemental Environmental Report for the Mixed Oxide Fuel Fabrication Facility and Notice of Public Meetings

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of receipt and notice of public meetings.

SUMMARY: On July 11, 2002, the U.S. Nuclear Regulatory Commission (NRC) received a supplemental Environmental Report (ER) from Duke COGEMA Stone & Webster (DCS), for the proposed Mixed Oxide (MOX) Fuel Fabrication Facility. The need for the supplemental ER arose, in January 2002, when the U.S. Department of Energy (DOE) announced its decision to alter its planned hybrid approach for surplus weapons plutonium disposition [65 FR 1608]. The Plutonium Immobilization Plant (PIP) that DOE had planned to build and operate as part of its hybrid approach will not be built. Instead, DOE decided that 34 metric tons of surplus weapons plutonium would be converted into MOX fuel at the proposed MOX facility. DOE's decision not to build the Plutonium Immobilization Plant (PIP) and convert all of the plutonium into MOX fuel requires design changes to the proposed MOX facility. The NRC staff found that due to these changes, DCS would be required to submit a supplemental ER. A notice of delay in issuance of the Draft and Final Environmental Impact Statements (EIS) for the proposed MOX facility was published in the **Federal Register** on April 24, 2002 (67 FR 20183). This **Federal Register** notice also discussed changes to the proposed MOX facility and DOE surplus disposition program.

The NRC will host three public meetings. The meetings are part of the continuing process to keep affected stakeholders and the public informed of plans, schedules and important issues related to the preparation of the EIS, and to answer questions. The purpose of the meetings will be to inform the public of changes in the supplemental ER and the DOE surplus disposition program. NRC staff will also discuss how these

changes have affected the scope of the Draft EIS summarized in the Scoping Summary Report dated August 2001. In the April 24, 2002 **Federal Register** notice, public comment was solicited on two issues.

(1) How the immobilization of surplus plutonium as a No Action Alternative should be discussed in the DEIS, since DOE has canceled plans to build the Plutonium Immobilization Plant.

(2) Whether there are additional reasonable alternatives not identified during scoping that should be considered in the DEIS, in light of the changes described above. As discussed in the Scoping Summary Report, NRC is considering the environmental impacts of the proposed action (construction and operation of the proposed MOX fuel fabrication facility), continued storage of surplus plutonium at existing DOE sites, and immobilization of surplus plutonium. If the immobilization alternative is not considered, then the DEIS would only evaluate the proposed action and one No Action Alternative.

NRC staff will summarize the responses received and solicit views of people at the meetings. Information will be provided on the EIS review process and stakeholders will be updated on the revised EIS schedule. The meeting dates, times and locations are listed below:

Tuesday, September 17, 2002, 7 p.m. to 10 p.m., North Augusta Community Center, 495 Brookside Avenue, North Augusta, South Carolina.

Wednesday, September 18, 2002, 7 p.m. to 10 p.m., Coastal Georgia Center, 305 Fahm Street, Savannah, Georgia.

Thursday, September 19, 2002, 7 p.m. to 10 p.m., Charlotte-Mecklenburg Government Center, 600 E. Fourth Street, Charlotte, North Carolina.
