

These collaborative activities can profoundly change the focus and activities of the South African National TB Control Program and improve TB treatment and control programs and related prevention efforts in South Africa.

B. Eligible Applicants

Assistance will be provided only to the Medical Research Council (MRC) of South Africa. No other applications will be solicited. MRC will support and ensure implementation of tuberculosis (TB) control activities that are designed to develop, establish, and coordinate systems and procedures to address the obstacles to achieving control of tuberculosis and multi-drug tuberculosis (MDR-TB) in South Africa.

MRC is the most appropriate and qualified agency to conduct the activities under this cooperative agreement because:

1. The MRC is uniquely positioned, in terms of legal authority, ability, track record, and credibility in South Africa to develop and support TB control activities in both public and non-governmental organization sites throughout the country.

2. The MRC has already established mechanisms to develop and implement TB treatment services in South Africa, enabling it to immediately become engaged in the activities listed in this announcement.

3. The purpose of the announcement is to build upon the existing framework of TB control activities that the MRC has developed or initiated.

4. The MRC has been mandated by the South African government to coordinate and implement TB treatment and control activities including MDR-TB within the country.

5. MRC has a unique and unparalleled involvement with the Ministry of Health's National Tuberculosis Control Program (NTP) and the South African National Tuberculosis Association (SANTA) based on a history of collaboration.

6. MRC coordinates the research and development activities for the Global Alliance for TB Drug Development in the search for a better, more effective and affordable cure for TB that is shorter, equally effective against susceptible and drug-resistant TB, accessible to the populations that need it most, and be on the market in less than 10 years.

C. Funds

Approximately \$307,000 is being awarded in FY 2002. The award will be made by July 1, 2002, for a 12-month

budget period within a project period of up to five years.

FOR FURTHER INFORMATION CONTACT:

Regarding the administrative and financial management issues of this notice: Maura Stephanos (see **ADDRESSES**).

Regarding the programmatic issues of this notice: Debra Y. Lewis, Office of Orphan Products Development (HF-35), Food and Drug Administration, 5600 Fishers Lane, rm. 15A-08, Rockville, MD 20857, 301-827-3666, FAX 301-827-0017, e-mail: dlewis@oc.fda.gov.

SUPPLEMENTARY INFORMATION: All studies of new drug and biological products must be conducted under the FDA's investigational new drug (IND) procedures and studies of medical devices must be conducted under the investigational device exemption (IDE) procedures. Studies of approved products to evaluate new orphan indications are acceptable; however, these must also be conducted under an IND or IDE to support a change in labeling. The study protocol proposed in the grant application must be under an active IND or IDE (not on clinical hold) to qualify the application for scientific and technical review. (See Program Review Criteria for important information about the IND/IDE status of products to be studied under these grants.)

Except for medical foods that do not need premarket approval, FDA will only consider awarding grants to support premarket clinical studies to find out whether the products are safe and effective for approval under section 301 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 331 *et seq.*) or under section 351 of the Public Health Service Act (the PHS Act) (42 U.S.C. 262).

FDA will support the clinical studies covered by this notice under the authority of section 301 of the PHS Act. FDA's research program is described in the Catalog of Federal Domestic Assistance, No. 93.103. The Public Health Service (PHS) strongly encourages all grant recipients to provide a smoke-free workplace and to discourage the use of all tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.
