Effluent Guidelines Program Plan for 2002/2003

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Effluent Guidelines Program Plan.

SUMMARY: Today's document announces EPA's Effluent Guidelines Program Plan for 2002/2003, which describes the Agency's ongoing effluent guidelines development efforts. Under the Clean

Water Act (CWA), EPA establishes national regulations, termed "effluent guidelines," to reduce pollutant discharges from industrial facilities to surface waters and publicly owned treatment works (POTWs). The Agency published a proposed plan on June 18, 2002 (67 FR 41417), and public comments on the proposed plan are discussed in today's notice. In addition, to prepare for the Effluent Guidelines Program Plan to be published in 2004 (for years 2004/2005), the Agency invites the public to identify existing effluent guidelines that EPA should consider revising and to identify any industrial categories for which effluent guidelines should be promulgated.

EFFECTIVE DATE: September 26, 2002.

ADDRESSES: The public record for this notice has been established under docket number W-01-12. It is available for review in the EPA Water Docket, which is located in room B135 EPA West, 1301 Constitution Avenue, N.W. The docket is open from 9 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. To schedule an appointment to see Docket materials, please call (202) 566-2426. The EPA public information regulation (40 CFR part 2) provides that a reasonable fee may be charged for copying. Recommendations on possible effluent guideline revisions or new categories can be made to Patricia Harrigan by e-mail at harrigan.patricia@epa.gov, or Jan Matuszko by e-mail at matuszko.jan@epa.gov.

FOR FURTHER INFORMATION CONTACT: Patricia Harrigan at (202) 566-1666 or harrigan.patricia@epa.gov, or Jan Matuszko at (202) 566-1035 or matuszko.jan@epa.gov.

I. Regulated Entities

Today's Effluent Guidelines Program Plan for 2002/2003 does not contain regulatory requirements. It identifies industrial categories for which EPA expects to develop or revise effluent limitations guidelines and standards ("effluent guidelines"), and sets forth the schedules for those rulemakings. Entities that could be affected by regulations developed under the schedules set forth in this Plan are shown in Table 1 below. One commenter stated that the Aquatic Animal Production effluent guideline may also affect federal- and state-run fish hatchery facilities. EPA agrees with the comment and the table has been updated to reflect this potential impact.

TABLE 1.—ENTITIES POTENTIALLY AFFECTED BY FORTHCOMING EFFLUENT GUIDELINES REGULATIONS

Category of entity	Examples of potentially affected entities
Industrial, Commercial, or Agricultural.	Metal Products and Machinery (including electroplating, metal finishing); builders and developers engaged in construction, development, and redevelopment; Feedlots (swine, poultry, dairy and beef cattle); Aquatic Animal Production (fish hatcheries and farms); and Meat Products (slaughtering, rendering, packing, processing of red meat and poultry); and Pulp and Paper (dissolving mills).
Federal Government	Metal Products and Machinery (including electroplating, metal finishing); builders and developers engaged in construction, development, and redevelopment; Aquatic Animal Production.
State and Tribal Government	Metal Products and Machinery (including electroplating, metal finishing); builders and developers engaged in construction, development, and redevelopment; Aquatic Animal Production.
Local Government	Metal Products and Machinery (including electroplating, metal finishing); builders and developers engaged in construction, development, and redevelopment.

II. Legal Authority

Today's document is published under the authority of section 304(m) of the CWA, 33 U.S.C. 1314(m).

III. Effluent Guidelines Program Background

The CWA directs EPA to promulgate effluent limitations guidelines and standards for categories or subcategories of industrial point sources that, for most pollutants, reflect the level of pollutant control attained by the best available

technologies economically achievable. See CWA sections 301(b)(2), 304(b), 306, 307(b), and 307(c). For point sources that introduce pollutants directly into the Nation's waters (i.e., direct dischargers), the limitations promulgated by EPA are implemented through National Pollutant Discharge Elimination System (NPDES) permits. See CWA sections 301(a), 301(b), and 402. For sources that discharge to POTWs (i.e., indirect dischargers), EPA promulgates pretreatment standards that

apply directly to those sources and are enforced by POTWs, which are backed by State and Federal authorities. See CWA sections 307(b) and (c).

Section 304(m) requires EPA to publish a Plan every two years that consists of three elements. First, under section 304(m)(1)(A), EPA is required to establish a schedule for the annual review and revision of existing effluent guidelines in accordance with section 304(b). Section 304(b) applies to effluent limitations guidelines for direct
